demonstrates engages with more than mere nostalgia when recast for grown up readers Abate examines how board books coloring books bedtime stories and series detective fiction written and published specifically for adults question the boundaries of genre and challenge the assumption that adulthood and childhood are mutually exclusive *Capital, Systems, and Objects* Richard Thomas Watson, 2020-12-01 This book provides a set of integrated frameworks capital systems and objects that transcend managerial or technology hype by focusing on the long term fundamentals that sustain organizational success Many organizations are currently addressing two important transformational issues ecological sustainability and digitization Sustainability is a goal an end and digitization is a process a means to achieve a goal This book introduces a flexible model that can be applied to current and future organizational challenges including sustainability and digitization because the fundamentals are constant This book is designed to serve two purposes for the readers first to present three conceptual foundations for designing and operating organizations capital systems and objects in Part I and second to provide a reference source for implementing these ideas in an organization Parts II and III The Part I of the book chapters 1 through 7 sets forth the conceptual foundations The chapters mix concepts and practical examples to give a new way of thinking about the setting in which one may work many days each year The Part II provides details and associated examples of every one of the thirty six forms of capital conversion It also illustrates how the five foundational systems support capital conversion in a variety of ways Finally the Part III is about measuring capital and systems The book will resonate with practitioners and students of strategy leadership and organizational design It is critical reading for leaders industry experts and general readers who want to understand how over thousands of years the capital creation system has developed today s world and will fashion its future *Humor 2.0* Salvatore Attardo, 2023-08-15 The book shows how humor has changed since the advent of the internet new genres new contexts and new audiences The book provides a guide to such phenomena as memes video parodies photobombing and cringe humor Included are also in depth discussions of the humor in phenomena such as Dogecoin the joke currency and the use of humor by the alt right It also shows how the cognitive mechanisms of humor remain unchanged Written by a well known specialist in humor studies the book is engaging and readable but also based on extensive scholarship **The Faces and Stakes of Brand Insertion** Sébastien Lefait, Sandrine Villers, 2022-03-22 With traditional forms of advertisement facing increasing challenges brand placement the integration of a product or brand in a work of art has exploded It has become a lucrative phenomenon whose goal is to produce a reaction of purchase in the mind of the receiver reader viewer or listener This volume seeks to complement extant studies of product placement strategies by introducing a methodology more systematically related to the field of cultural studies especially where the reception and impact of product placement are concerned It explores the many iterations of brand placement in popular culture with a consideration of the crossover between advertisement and art in everything from Wes Anderson Blade Runner and the Fast and Furious franchise to music videos late night shows and plastic art The book considers the impact of brand

placement in TV series on teenagers as well as the evolution of such placement in literature The originality of this volume is that when the impact of the placement is mentioned it is to be understood as an intended aesthetic impact at least as much as a prompt to buy a product Consequently the placement of consumer goods in a cultural production the book suggests may both increase the sales of specific products and positively impact the production s ratings This book is perfect for researchers and students interested in marketing brand placement mass media art film and cultural studies **The Age of Persuasion**
