Digital Preservation and Documentation of Global Indigenous Knowledge Systems Masenya, Tlou

Maggie, 2023-08-03 Indigenous knowledge is regarded as undocumented cultural, local, traditional and community knowledge produced and owned by local people in their specific communities. It is mainly preserved in the memories of elders and shared or passed on from generation to generation through oral communication, traditional practices and demonstrations. This irreplaceable resource may be lost forever as a direct result of the pressures of modernization, colonization and globalization. Concern over the loss of Indigenous knowledge has thus raised a need for the preservation and documentation of this knowledge in digital formats. Digital Preservation and Documentation of Global Indigenous Knowledge Systems determines how Indigenous knowledge can be documented and digitally preserved to benefit Indigenous knowledge owners and their communities and be accessible for future generations. The book provides the best practices, innovative strategies, theoretical and conceptual frameworks and empirical research findings regarding the digital preservation and documentation of Indigenous knowledge systems worldwide. Covering topics such as digital media platforms, educational management and knowledge systems, this premier reference source is a valuable and useful tool for students, information professionals, knowledge managers, records managers, Indigenous knowledge owners, Indigenous community leaders, librarians, archivists, computer scientists, information technology specialists, students and educators of higher education, researchers and academicians.
