**The BBC German Service during the Second World War** Vike Martina Plock,2021-09-16 This book part media history and part group biography tells the story of the BBC's attempts to reach out to listeners in Nazi Germany at a time when Anglo German relations were particularly strained Who were the individuals behind the microphone whose names could only be mentioned in whispered conversations on the continent Who wrote the satirical sketches that offered comic relief to housewives struggling to obtain enough food to feed their families And who made decisions about programme delivery and staffing Drawing extensively on previously unexamined archival material The BBC German Service during the Second World War Broadcasting to the Enemy sheds light on the complex often difficult working arrangements at the wartime BBC where people from different nationalities and socio political backgrounds collaborated and argued about the delivery of an effective propaganda programme that would assist the Allies in defeating the Nazis *World-radio; the BBC Foreign Programme Journal* ,1938 **Biofuels** Ram Sarup Singh,Ashok Pandey,Edgard Gnansounou,2016-11-10 This will be a comprehensive multi contributed reference work with the Editors being highly regarded alternative fuels experts from India and Switzerland There will be a strong orientation toward production of biofuels covering such topics as biodiesel from renewable sources biofuels from biomass vegetable based feedstocks from biofuel production global demand for biofuels and economic aspects of biofuel production Book covers the latest advances in all product areas relative to biofuels Discusses coverage of public opinion related to biofuels Chapters will be authored by world class researchers and practitioners in various aspects of biofuels Provides good comprehensive coverage of biofuels for algae Presents extensive discussion of future prospects in biofuels **The Listener and BBC Television Review** ,1967 **HOW TO BUILD RESILIENCE TO CONFLICT** Breisinger, Clemens,Ecker, Olivier,Maystadt, Jean-François,Trinh Tan, Jean-François,Al-Riffai, Perrihan,Bouzar, Khalida,Sma, Abdelkarim,Abdelgadir, Mohamed,2014-09-30 This Food Policy Report explains why there is a need to place even higher priority on food security related policies and programs in conflict prone countries and offers insights for policymakers regarding how to do so To understand the relationship between conflict and food security this report builds a new conceptual framework of food security and applies it to four case studies on Egypt Somalia Sudan and Yemen It argues that food security related policies and programs build resilience to conflict insofar as they are expected not only to help countries and people cope with and recover from conflict but also to contribute to preventing conflicts and support economic development more broadly by helping countries and people become even better off *Building resilience to conflict through food security policies and programs* Breisinger, Clemens Ecker, Olivier,Maystadt, Jean-François,Trinh Tan, Jean-François,Al-Riffai Perrihan,Bouzar, Khalida,Sma, Abdelkarim,Abdelgadir, Mohamed,2014-04-30 Food insecurity at the national and household level not only is a consequence of conflict but can also cause and drive conflicts This paper makes the case for an even higher priority for food security related policies and programs in conflict prone countries Such policies and

programs have the potential to build resilience to conflict by not only helping countries and people cope with and recover from conflict but also contributing to preventing conflicts and supporting economic development more broadly that is helping countries and people become even better off Based on this definition and a new conceptual framework the paper offers several insights from four case studies on Egypt Somalia Sudan and Yemen First conflicts are often related to other shocks such as economic crises price shocks and natural disasters Second increasing subsidies is a favored policy measure in times of crisis however such measures do not qualify as resilience building Third climate change adaptation should be an integral part of conflict prevention in part because climate change is expected to significantly increase the likelihood of conflict in the future Fourth building price information systems introducing and expanding credit and insurance markets geographic targeting of social safety nets and building functioning and effective institutions are key measures for building resilience to conflict Finally the paper points to several important knowledge gaps

**London Calling** ,1947 BBC Handbook British Broadcasting Corporation,1928 *New Scientist* ,1969 *The Anarchy of Nazi Memorabilia* Michael Hughes,2022-02-08

Out of the numerous books and articles on the Third Reich few address its material culture and fewer still discuss the phenomenon of Nazi memorabilia This is all the more surprising given that Nazi symbols so central to sustaining Hitler's movement continue to live long after the collapse of his 12 year Reich Neither did Nazi ideology die far right populists would like to see the swastika flown over the White House or Buckingham Palace Against a backdrop of right wing extremism military re enactors think nothing of dressing up in Waffen SS uniforms and romanticising the Third Reich in the name of living history Auctioneers are prepared to hammer down Nazi artefacts to the highest bidder but who is buying them and why do they do so Should collectors be allowed to decorate their homes with Nazi flags The Anarchy of Nazi Memorabilia begins by examining the creation and context of Nazi artefacts and symbols during the volatile Weimar Republic to their wider distribution during the Third Reich There were few people in Nazi Germany who did not wear a badge or uniform of some sort Whether it be mothers soldiers or concentration camp inmates they were all branded The chapter on the Second World War demonstrates that although German soldiers were cynical about being given medals in exchange for freezing in Russia They still continued to fight for which more decorations were awarded A large proportion of this book is therefore given to the meaning that Nazi symbols had before Nazi Germany was eventually defeated in May 1945 Equally important however and one of the characteristics of this book is the analysis of the meaning and value of Nazi material culture over time The interpreters of Nazi symbols that this book focuses on are internationally based private collectors and traders Sustained attention is given in a chapter outlining the development of the collectors market for Nazi memorabilia from 1945 onwards No matter how much collectors go out of their way to paint the hobby in a positive light their activities do not fully escape the troubled past of the material that they desire So contested are Nazi symbols that another chapter is devoted to the ethics and morals of destroying or preserving them The issues surrounding private versus public custody and ownership

of Nazi artefacts are also discussed So far in this book the examination of Nazi artefacts has been restricted to physical objects within societies that are generally aware of the consequences of Hitlerism As we increasingly move into the digital age however and there are few survivors of the Second World War left to relay their horrific experiences the final chapter contemplates the future of Nazi symbols both digitally and physically fake or real This book will appeal to all those interested in the Third Reich Nazi ideology Neo Nazism perceptions of the Nazis post 1945 modern European history and political symbolism It will also hold particular appeal to those interested in the collecting and trading of contested and highly emotive artefacts It considers aesthetics authenticity commodification gift exchange life histories of people and objects materiality and value theory
