Economic Statecraft and Foreign Policy Jean-Marc F. Blanchard,Norrin M. Ripsman,2013-07-18 This book develops a unified theory of economic statecraft to clarify when and how sanctions and incentives can be used effectively to secure meaningful policy concessions High profile applications of economic statecraft have yielded varying degrees of success The mixed record of economic incentives and economic sanctions in many cases raises important questions Under what conditions can states modify the behaviour of other states by offering them tangible economic rewards or by threatening to disrupt existing economic relations To what extent does the success of economic statecraft depend on the magnitude of economic penalties and rewards In order to answer these questions this book develops two analytic models one weighs the threats economic statecraft poses to the Target s Strategic Interests TSI while the other stateness assesses the degree to which the target state is insulated from domestic political pressures that senders attempt to generate or exploit Through a series of carefully crafted case studies including African apartheid and Japanese incentives to obtain the return of the Northern Territories the authors demonstrate how their model can yield important policy insights in regards to contemporary economic sanctions and incentives cases such as Iran and North Korea This book will be of much interest to students of statecraft sanctions diplomacy foreign policy and international security in general

The Kim Jong Il Regime in North Korea Charles W. Tarrington, 2009 Much hyperbole surrounds the political regime in the Democratic People's Republic of Korea DPRK or North Korea Many analysts argue that North Korea is a unique political system What kind of regime is the DPRK and what kind of leader does it have A variety of labels are given to the North Korean regime These include likening the regime to an organised crime family and to a corporatist organism There are certainly merits to each of these approaches but each has its limitations Pjöngjang does share some of the attributes of organised crime and certainly engages in criminal activity in a systematic and calculating manner This pattern of illicit behaviour includes the production and distribution of narcotics as well as the counterfeiting of foreign currencies cigarettes and pharmaceuticals But the DPRK is more than a crime family it possesses a massive conventional military force as well as significant strategic forces Moreover the regime continues to brainwash imprison or starve North Koreans inflicting untold misery and death on its people Corporatism meanwhile may provide insights into certain aspects of the system but its utility is limited by the confusion that surrounds understanding of this concept An absolute dictator still rules the regime
