**Disposable Americans** Paul Buchheit, 2017-03-31 Inequality has dramatically increased in America with few solutions on the horizon Serious social inequalities persist For example the 14 richest Americans earned enough money from their investments in 2015 to hire two million preschool teachers while the USA ranks low among developed countries in preschool enrollment Following the Great Recession the richest one percent took 116 percent of the new income gains a statistic caused by so many middle class Americans moving backward many losing investments in property and experiencing interruptions in work Author Paul Buchheit looks hopefully to solutions in a book that vividly portrays the rapidly changing inequality of American society More Americans have become disposable as middle class jobs have disappeared at an alarming rate Buchheit presents innovative proposals that could quickly begin to reverse these trends including a guaranteed basic income drawn from new revenues such as a Financial Speculation Tax and a Carbon Tax Discussing the challenges and obstacles to such measures he finds optimism in past successes in American history Ideal for classroom assignment the book uniquely pairs historical events with current real life struggles faced by citizens pointing to measures that can improve personal and social well being and trust in government *The Anatomy of Neoliberalism and Education* Maria Nikolakaki, 2021-10-22 This book analyzes neoliberalism and education from a Marxist perspective exploring its political cultural and financial tools It examines how neoliberalism became common sense its imperialist impact and its role in education The book reinterprets neoliberal educational reforms within the broader history of American capitalism *The Need for a New Economic System* John Scales Avery, 2016-02-07 It is clear that our present economic system is unsustainable Never ending exponential industrial growth on a finite planet is a logical absurdity We are already using resources at a rate which it would take 1 6 planet earths to replace We are already undermining the ecological systems which support all of life Our present economic system has led to an unbelievable degree of economic inequality To maintain this inequality both between nations and within nations military force is used and democracy is replaced by oligarchy The future of human civilization is endangered both by the threat of thermonuclear war and by the threat of catastrophic climate change and both of the twin threats are results of our present economic system This book documents in detail the serious economic problems of today s world and it also proposes sustainable solutions **POPULATION AND THE ENVIRONMENT** John Scales Avery, 2018-07-26 This book describes the steps needed to stabilize global population in order to avoid an environmental catastrophe It also presents a history of the struggle for women s rights and for their representation in politics science literature music and the visual arts **Because We Say So** Noam Chomsky, 2015 Concise forceful commentaries on US politics and global crisis from cyberwar and surveillance to the increasing urgency of climate change [Writing on the Wall](#) Mumia Abu Jamal, 2015-06-29 Revolutionary love revolutionary memory and revolutionary analysis are at work in every page written by Mumia Abu Jamal His writings are a wake up call He is a voice from our prophetic tradition speaking to us here
