**Victimology** Rejani Thudalikunnil Gopalan, 2022-10-27 The term victim refers to a person harmed injured or killed as a result of a crime accident or other event or action. Victimology focuses on the victimization in terms of psychological effects impact on criminal justice system and new policies and it is a major aspect in the area of forensic field. Victimization can occur due to abuse assault maltreatment war terrorism crimes and it can happen in different settings like home school and public. In the past more emphasis was given to perpetrators and various theories tried to explain the behavior of perpetrator and their offences. Recently researchers started focusing different aspects of victimology and explored risk factors for becoming victim reasons for repeated victimization and forensic psychological and social dimensions of victims and consequences of victimization. But there is a need for new theories and researches to have more thorough understanding of victimization. The field of criminology dealt with crimes and various theories have developed to explain why crime occurs and more focused on perpetrators. A crime involves perpetrator and victim and not much attention has been given to the victim until recently. What happens to a victim what are the psychological and social consequences of a harmful act to a victim. Vulnerabilities to become a victim are getting serious attention now a days and started influencing the criminal justice system. The psychological and social impacts of victimization

may be a short or long duration but the impacts cannot be ignored The legal remedies and psychological healings are important aspects of victimization While considering these factors the book would be focusing on origin and scope of victimology different types of victimization such as sexual abuse domestic violence maltreatment cyber crimes war and terrorism natural calamities victimization at school and work place human trafficking crime against persons crime against property white collar crime elder abuse victim with disabilities secondary victim and re victimization and its psychological impacts and related issues The book would also focus on victimology and forensic factors and its influence on criminal justice system in addition to the psychological management of victimization Beck Youth Inventories Manual Judith S.
