Elkins, 2019-09-03 Go behind the scenes to discover why the Colosseum was the king of amphitheaters in the Roman world a paragon of Roman engineering prowess Early one morning in 80 CE the Colosseum roared to life with the deafening cheers of tens of thousands of spectators as the emperor Titus inaugurated the new amphitheater with one hundred days of bloody spectacles These games were much anticipated for the new amphitheater had been under construction for a decade Home to spectacles involving exotic beasts elaborate executions of criminals gladiatorial combats and even when flooded small scale naval battles the building itself was also a marvel Rising to a height of approximately 15 stories and occupying an area of 6 acres more than four times the size of a modern football field the Colosseum was the largest of all amphitheaters in the Roman Empire In *A Monument to Dynasty*

and Death Nathan T Elkins tells the story of the Colosseum's construction under Vespasian its dedication under Titus and further enhancements added under Domitian The Colosseum Elkins argues was far more than a lavish entertainment venue it was an ideologically charged monument to the new dynasty its aspirations and its achievements A Monument to Dynasty and Death takes readers on a behind the scenes tour of the Colosseum from the subterranean tunnels where elevators and cages transported gladiators and animals to the blood soaked arena floor to the imperial viewing box to the amphitheater's decoration and amenities such as fountains and an awning to shade spectators Trained as an archaeologist an art historian and a historian of ancient Rome Elkins deploys an interdisciplinary approach that draws on contemporary historical texts inscriptions archaeology and visual evidence to convey the layered ideological messages communicated by the Colosseum This engaging book is an excellent resource for classes on Roman art architecture history civilization and sport and spectacle
