## **A U M Awakening To Reality:**

A-U-M Dennis Waite,2015-09-25 Gaudapada was one of the world s greatest philosophers in seventh century India He invokes the mystical symbol AUM pronounced as ohm pointing to the three states of consciousness waking dreaming and deep sleep and the nature of reality itself In the text on which this book is based he writes that the waker dreamer and deep sleeper are like the roles that an actor plays at various times All three states are the result of ignorance and error Who we really are is the fourth aspect the actor himself If you see or feel a thing then that thing is not real So the waking world is no more real than the dream You have never been born Nothing has ever been created Causality is a myth Discover your true nature to be Existence Consciousness without limitations undivided and infinite prior to time and space Incredible Read and be convinced by the irrefutable logic of Gaudapada     Answers... to the Difficult Questions Dennis Waite,2020-03-27 All spiritual seekers encounter problems A question arises which appears to challenge the veracity of their chosen path If an answer is not found quickly there is a great danger that the particular teaching will be abandoned and another sought Dennis Waite draws on traditional Advaita teachings to answer all seeker related questions He first invited questions to his website in 2005 and this book collects questions and answers in a comprehensive volume for experienced and new spiritual seekers One answer often leads to a new worry and his website adavaita vision org continues to accept questions No question is too difficult for Advaita Vedanta and all answers are reasonable     Duality & Non-Duality Alberto Martin Garcia,2022-11-30 Alberto Mart n has spent many years studying and practicing Christianity Sufism Buddhism and Advaita Vedanta in that sequence plus at one time the religion of the Crows a native tribe of N America For me it has been universalism all along ever since I read Plato when I was 15 years old Lately my attention has been focused on Shankara s Advaita Vedanta and non duality For this author Plato and Shankara say practically all that can be said about reality and the way towards its assimilation and exemplification In this work Mart n answers many of the probing questions anyone of us is led to ask along our lives     Losing Reality Robert Jay Lifton,2019-10-15 A definitive account of the psychology of zealotry from a National Book Award winner and a leading authority on the nature of cults political absolutism and mind control In this unique and timely volume Robert Jay Lifton the National Book Award winning psychiatrist historian and public intellectual proposes a radical idea that the psychological relationship between extremist political movements and fanatical religious cults may be much closer than anyone thought Exploring the most extreme manifestations of human zealotry Lifton highlights an array of leaders from Mao to Hitler to the Japanese apocalyptic cult leader Sh k Asahara to Donald Trump who have sought the control of human minds and the ownership of reality Lifton has spent decades exploring psychological extremism His pioneering concept of the Eight Deadly Sins of ideological totalism originally devised to identify brainwashing or thought reform in political movements has been widely quoted in writings about cults and embraced by members and former members of religious cults seeking to understand their experiences In Losing Reality Lifton makes clear that the apocalyptic

impulse that of destroying the world in order to remake it in purified form is not limited to religious groups but is prominent in extremist political movements such as Nazism and Chinese Communism and also in groups surrounding Donald Trump. Lifton applies his concept of malignant normality to Trump's efforts to render his destructive falsehoods a routine part of American life. But Lifton sees the human species as capable of regaining reality by means of our protean psychological capacities and our ethical and political commitments as witnessing professionals. Lifton weaves together some of his finest work with extensive new commentary to provide vital understanding of our struggle with mental predators. *Losing Reality* is a book not only of stunning scholarship but also of huge relevance for these troubled times. **The Science of Awakening**
