Living Confidently Out of Your Mind Dr. Ron Waggoner, 2022-03-16 It s a common belief that the brain created consciousness However if the brain created conscious then the brain had to be unconscious prior to creating consciousness This fact created a dilemma which hasn t been resolved The brain thought it was thoughtless while it was unable to think Complicating the problem further the brain came up with the idea of needing consciousness while unconscious which brought about a most critical but mostly unasked question How did an unconscious brain become conscious of being unconscious If the brain is the universe s ultimate authority why the need for conscious in the first place Nevertheless for some unknown reason an unconscious ancestral brain fabricated a metaphysical consciousness which is to do its thinking Making matters worse the ancestral brain not only established itself as the universe s intellectual power broker it also created a universal hoax A mortal brain created immortality even though it had indisputable evidence to the contrary Being the universe s intellectual authority the brain had to know all brains remain

in the skull following death which makes eternity not only a hoax but also pointless there s no one to populate the space All mankind including the spiritually based communities believe the brain is the universe s intellectual authority However it s utterly irrational to believe the brain is the universe s intellect while believing in an eternal afterlife If the brain is life s intellectual authority then there is no eternal afterlife If Christianity is true then the brain cannot be the universe s intellectual authority Subsequently Dr Waggoner s book is a practical response to these contradictions His theory delivers a new and convincing understanding of spirit being the source of conscious We are responsible for life In addition the book emphasized our ability to transcend the biological mind We can do abundantly more than the brain can think dream or envision In other words we can live confidently out of our minds *The Church School Journal* ,1910 *The Champion of the faith against current infidelity*, ed. by J. demonstrates the ways in which James Baldwin disidentifies with and queers Black Christian language and theology throughout his literary corpus Baldwin's vision is one in which queer sexuality signifies the depth of love's transforming possibilities the arts serve as the religious medium of knitting Black community together an agnostic and affective mysticism undermines Christian theological discourse androgyny troubles the gender binary and the Black child signifies the hope for a world made new In disidentifying with Christian symbols Jimmy's Faith reveals how Baldwin imagines both religion and the world otherwise offering a model of how we might do the same for our own communities and ourselves *History of U.S. Political Parties: 1910-1945: from square deal to New Deal* Arthur Meier Schlesinger,1980 **Christian Advocate** ,1909
