Interface Between The Psychodynamic And Behavioral Therapies:

The Interface Between the Psychodynamic and Behavioral Therapies Judd Marmor, 2012-12-06 It is sobering to reflect that it has been nearly fifty years since Thomas French's article on the Interrelations between Psychoanalysis and the Experimental Work of Pavlov representing the first psychoanalyst to bridge the gap between the theories of conditioning was published. In his paper French clearly delineated the manner and directions in which these two points of view might enrich each other. Regrettably his openness to new ideas has not been characteristic of most schools of psychiatry thought which have tended instead to develop an unfortunate degree of insularity. This has occurred despite the obvious reality that the bio-social psychological nature of man is such that no one theory or discipline is likely in the foreseeable future to explain much less predict all of the complexities of human behavior. All too often disputing theoreticians like the fabled blind men describing the elephant assume that the whole is just a gigantic magnification of the parts with which they are in contact. When treatment strategies are extrapolated from such narrow views more often than not they fail to achieve the parsimony of effort, the breadth of application and the maximum of efficiency that one would hope for. In our opinion it is impossible adequately to conceptualize personality development, symptom formation or responses to psychotherapy without taking into consideration theories of conflict as well as those of learning.

Interface Between the Psychodynamic and Behavioral Therapies Judd Marmor, 2012-12-01 **Handbook of Psychotherapy Integration** John C. Norcross, Marvin R. Goldfried, 2003-09-11

This volume originally published in 1992 by Basic Books provides for the first time a comprehensive state-of-the-art description of therapeutic integration and its clinical practices by the leading proponents of the movement. After presenting the concepts, history, research and belief structure of psychotherapy integration, the book considers two exemplars of theoretical integration: technical eclecticism and common factors. The authors review integrative therapies for specific disorders including anxiety, depression and borderline personality disorder along with integrative treatment modalities such as combining individual and family therapy and integrating pharmacotherapy and psychotherapy. The book concludes with a section on training and a look at future directions.
