**Management and Error Reduction in Aviation Maintenance** Manoj S. Patankar, James Chapman Taylor, 2004 Although several U S and European airlines have started providing human factors training to their maintenance personnel the academic community some 300 academic programs in the United States and several others in Europe and Asia has not yet started offering formal human factors education to maintenance students The highly respected authors strongly believe in incorporating the human factors principles in aviation maintenance This is the first of two volumes providing effective behavioural guidance on risk management in aviation maintenance for both the novice and the experienced maintenance personnel Its practical guidelines assist both student and practising aviation maintenance personnel to develop sustainable safety culture For the maintenance community it provides some theoretical discussion about the Why for risk management and then focus on the How to implement a successful error reduction program To help the maintenance community in making a strong case to their financial managers the authors also discuss the return on investment for risk management programs The issue of risk management is taken at two levels First it provides a basic awareness information to those who have little or no knowledge of maintenance human factors Second it provides a set of practical tools for the more experienced people so that they can be more effective in risk management and error recovery in their jobs This invaluable book serves as a practical guide as well as an academic textbook The book covers fundamental human factors principles from a risk

management perspective Upon reading this informative book the audience will be able to apply the basic principles of risk management to aviation maintenance environment and they will be able to use low risk behaviours in their daily work

Critical Lapses in Federal Aviation Administration's Safety Oversight of Airlines: Abuses of Regulatory Partnership Programs, James Oberstar, 2009-12 Hearing to review the results of an oversight investigation Two FAA Aviation Safety Inspectors have provided evidence raising serious questions of conduct violating the Fed Aviation Reg s FARs in the inspection and maint program of Southwest Airlines SWA FAA employees have engaged in conduct which constitutes a violation of Fed law rule or reg n gross mismgt an abuse of authority and a substantial damage to public safety The Maint Inspector for SWA knowingly allowed the airline to operate in March 2007 and possibly beyond and well after the inspection deadlines on a mandatory FAA Airworthiness Directive There may be a pattern of regulatory abuse and that these regulatory lapses may be more widespread Illustrations **Boeing 737 Maintenance Training Manual** American Airlines.
