And Excommunicated Union Created Separate Catholic:

Excommunicated from the Union William B. Kurtz, 2015-12-01 Anti Catholicism has had a long presence in American history. The Civil War in 1861 gave Catholic Americans a chance to prove their patriotism once and for all. Exploring how Catholics sought to use their participation in the war to counteract religious and political nativism in the United States. *Excommunicated from the Union* reveals that while the war was an alienating experience for many of 200 000 Catholics who served, they still strove to construct a positive memory of their experiences in order to show that their religion was no barrier to their being loyal American citizens

The intertwining of U.S. Catholicism and race-based slavery is a painful aspect of the Church's history. Many scholars have shied away from this uncomfortable topic, but in recent years a cadre of historians have studied Catholics' varied roles as enslaved persons, slaveholders, defenders of slavery, and in a few cases advocates of abolition and emancipation. This collection of nine essays is divided into three sections: enslaved persons and slaveholders debating abolition and emancipation, and historians and historiography. The studies, many of which are informed by recent archival discoveries, offer a model for historians seeking to understand the relationship between slavery and the Church not only topically but in terms of methods, contexts, and resources. They contribute to a broader appreciation of religion's role in race-based slavery and, in doing so, will assist scholars, teachers, and students in the contemporary discussion involving slavery, racism, and their legacies.

Slavery and the Catholic Church in the United States witnesses to the fragility of humanity, which is capable of freedom or slavery, brotherhood or hatred. Yet each chapter offers a ray of hope suggesting how we might acknowledge and respond to this difficult history

Undiplomatic History Asa McKercher, Philip Van Huizen, 2019-04-30 When the field of Canadian history underwent major shifts in the 1990s, international history became marginalized, and the focus turned away from foreign affairs. Over the past decade, however, the study of Canada and the world has been revitalized. *Undiplomatic History* charts these changes, bringing together leading and emerging historians of Canadian international and transnational relations to take stock of recent developments and to outline the course of future research. Following global trends in the wider historiography, contributors explore new lenses of historical analysis such as race, gender, political economy, identity, religion, and the environment, and emphasize the relevance of non-state actors including scientists, athletes, students, and activists. The essays in this volume challenge old ways of thinking and showcase how an exciting new generation of historians are asking novel questions about Canadians' interactions with people and places beyond the country's borders. From human rights to the environment and from medical internationalism to transnational feminism, *Undiplomatic History* maps out a path toward a vibrant and inclusive understanding of what constitutes Canadian foreign policy in an age of global connectivity.

American Catholics Leslie Woodcock Tentler, 2020-01-01 A sweeping history of American Catholicism from the arrival of the first Spanish missionaries to the present Tentler does justice to James Joyce's quip that Catholicism means here comes everybody. This is the story of everybody lay people, sisters, priests, who was part of the church in the United States a story insightfully analyzed and admirably told. A definitive synthesis James M O Toole author of *The Faithful* This comprehensive survey of Catholic history in what became the United States spans nearly five hundred years from the arrival of the first Spanish missionaries to the present. Distinguished historian Leslie Tentler explores lay religious practice and the impact of clergy on Catholic life and culture as she seeks to answer the question What did it mean to be a good Catholic at particular times and in particular places. In its focus on Catholics participation in American politics and Catholic intellectual life this book includes in depth discussions of Catholics race and the Civil War. Catholics and public life in the twentieth century and Catholic education and intellectual life. Shedding light on topics of recent interest such as the role of Catholic women in parish and community life, Catholic reproductive ethics regarding birth control and the Catholic church sex abuse crisis this engaging history provides an up to date account of the history of American Catholicism. [Sanctuary in Pieces](#) Laura Madokoro, 2024-10-15 Over the past two decades the Sanctuary City movement has resulted in hundreds of jurisdictions declaring themselves safe spaces for undocumented migrants and people without status. Although they often draw on historical precedent public sanctuary efforts amongst settler societies are markedly different from how refuge was conceptualized in the past. To explore these broad shifts *Sanctuary in Pieces* looks at the history of protection and hospitality in Montreal Mooniyaang Tiohti'ke over two hundred years. Laura Madokoro traces the movements and experiences of fugitives from slavery, wanted criminals, internationally renowned anarchists and war resisters before turning to instances of public sanctuary practices since the 1970s. As people sought and forged refuge they navigated a web of social connections, political agendas and economic realities testing the notion of the city and whom it was for. Even as those in search of sanctuary imagined and often enacted possible futures in the city, sanctuary was far from easy. It lay in an underground marked by refusal and denial, selective compassion and solidarity and sometimes outright animosity. This contested and tumultuous history offers a profound challenge to the symbolism and substance of contemporary sanctuary city efforts. Conceptually innovative *Sanctuary in Pieces* speaks to activist and policy considerations in the present the making and unmaking of community and how historical practice can accommodate silence in studies of intimate experiences of mobility and on occasion refuge.
