## **S Online For Kids To Read:**

*Supporting Reading in Grades 6-12* Sybil M. Farwell,Nancy L. Teger,2012-06-11 This book presents a curricular framework for students grades 6-12 that school librarians and teachers can use collaboratively to enhance reading skill development. It promotes literature appreciation and motivates young people to incorporate reading into their lives beyond the required schoolwork. Supporting Reading Grades 6-12 A Guide addresses head-on the disturbing trend of declining leisure reading among students and demonstrates how school librarians can contribute to the development of lifelong reading habits as well as improve students' motivation and test scores. The book provides a comprehensive framework for achieving this. The READS curriculum, which stands for Read as a personal activity, Explore characteristics, history, and awards of creative works, Analyze structure and aesthetic features of creative works, Develop a literary based product, and Score reading progress. Each of these five components is explained thoroughly, describing how school librarians can encourage students to read as individuals, in groups, and as school communities support classroom teachers' instruction and connect students to today's constantly evolving technologies. Used in combination with an inquiry information skills model, the READS curriculum enables school librarians to deliver a dynamic, balanced library program that addresses AASL's Standards for the 21st Century Learner.

*Information Literacy and Information Skills Instruction* Nancy Pickering Thomas, Sherry R. Crow, Judy A. Henning, Jean Donham Ph.D., 2020-06-09 Exploring the ways in which today's Internet-savvy young people view and use information to complete school assignments and make sense of everyday life, this new edition provides a review of the literature since 2010. The development of information literacy skills instruction can be traced from its basis in traditional reference services to its current growth as an instructional imperative for school librarians. Reviewing the scholarly research that supports best practices in the 21st century school library, this book contains insights into improving instruction across content areas drawn from the scholarly literatures of library and information studies, education, communication, psychology, and sociology that will be useful to school academic and public librarians and LIS students. In this updated fourth edition, special attention is given to recent studies of information seeking in changing instructional environments made possible by the Internet and new technologies. This new edition also includes new chapters on everyday information seeking and motivation and a much expanded chapter on Web 2.0. The new AASL standards are included and explored in the discussion. This book will appeal to LIS professors and students in school librarianship programs as well as to practicing school librarians.
