Offering an insider's account of Fidesz's evolution since its creation she explains how the party rose to leadership of the country under Orbán and made sweeping legal, political and economic changes to solidify its grip on power from reigning in the public media to slashing the number of parliamentary seats. She answers a key question: why has Orbán been so successful, winning widespread support within Hungary and wielding considerable influence in European politics. And how can Hungary's opposition party Together, which she co-founded in 2014, work to turn the country around? Underpinned by Szelényi's own experiences at the heart of Hungarian politics, *Tainted Democracy* offers accessible, nuanced insights into the global rise of populist autocracy and how it can be challenged.

**Secession in International Law with a Special Reference to the Post-Soviet Space** Júlia Miklasová, 2024-08-19 The open access publication of this book has been published with the support of the Swiss National Science Foundation. International law is increasing in relevance to the topic of secession. This book demonstrates that if a secessionist entity's effectiveness is achieved in violation of peremptory norms, the emergence of statehood is precluded, thereby challenging a classical view of secession as purely factual and meta-legal. Dr Júlia Miklasov coins the term 'illegal secessionist entity' to demonstrate the pervasive effects of the original illegality on the subsequent relations of such entities. Purported diplomatic, treaty, economic relations, acts and laws, and outlines the overlapping regimes of the law of occupation, human rights law and duty of non-recognition. Post-Soviet secessionist entities result from an illegal use of force. They are thus prohibited from becoming States and further consequences of their illegality apply.

[Law, Territory and Conflict Resolution](#) Matteo Nicolini, Francesco Palermo, Enrico Milano, 2016-05-02 Prompted by the de facto secession of Crimea in early 2014, *Law, Territory and Conflict Resolution* explores the role of law in territorial disputes and therefore sheds light on the legal realities in territorial conflicts. Seventeen scholars with backgrounds in comparative constitutional law and international law critically reflect on the well-established assumption that law is part of the solution in territorial conflicts and ask whether the law cannot equally be part of the problem. The volume examines theory, practice, legislation and jurisprudence from various case studies, thus offering further insights on the following complex issue: can law act as an effective instrument for the governance of territorial disputes and conflicts?

**Fake Law** The Secret Barrister, 2020-09-03 THE TOP TEN SUNDAY TIMES BESTSELLER A powerful polemic Sunday Times A compelling eye-opening read Daily Express Did an illegal immigrant avoid deportation because he had a cat? Is the law on the side of the burglar who enters your home? Are unelected judges enemies of the people? Most of us think the law is only relevant to criminals if we even think of it at all. But the law touches every area of our lives.

from intimate family matters to the biggest issues in our society Our unfamiliarity is dangerous because it makes us vulnerable to media spin political lies and the kind of misinformation that frequently comes from loud mouthed amateurs and those with vested interests This fake law allows the powerful and the ignorant to corrupt justice without our knowledge worse we risk letting them make us complicit Thankfully the Secret Barrister is back to reveal the stupidity malice and incompetence behind many of the biggest legal stories of recent years In *Fake Law* the Secret Barrister debunks the lies and builds a defence against the abuse of our law our rights and our democracy that is as entertaining as it is vital *Paper[s] of the U.S. Waterways Experiment Station, Vicksburg. **Canadian Journal of Earth Sciences** ,2014 **The Neighbours of the European Union's Neighbours** Sieglinde Gstöhl,Erwan Lannon,2016-02-24 Should the European Neighbourhood Policy stop at the borders of the European Union s immediate neighbouring countries This book is the first full length study of the neighbours of the EU s neighbours a concept originally introduced by the European Commission with reference to Saharan Africa the Middle East and Central Asia These regions in the EU s broader neighbourhood are often

perceived as an arc of crisis from which manifold challenges emanate for Europe. This timely book takes stock of the state of the EU's cooperation with the neighbours of its neighbours and explores how the concept might help promote security, stability and prosperity beyond the countries which are formally part of the European Neighbourhood Policy. How can the EU create bridges between these regions? What instruments does the EU have at its disposal and how can it link them in order to respond to the challenges and overcome the current fragmentation? One of the conclusions is the suggestion to consider a pragmatic EU Strategy for the Neighbours of its Neighbours which addresses the needs of the broader EU neighbourhood in a more systematic and consistent manner and helps transform in the long run the arc of crisis into another ring of friends.
