*Associated Press Stylebook, 2012* Darrell Christian, Sally A. Jacobsen, David Minthorn, 2012 **Communicating**

**Disability** Erin Willis, Chad Painter, 2025-06-30 This book enables readers to confidently discuss and understand disability as part of the broader societal conversation on diversity equity and inclusion. The influence of mass media can raise awareness, educate, reduce stigma, facilitate advocacy related to disability, and activate attitude and behavior change. Recognizing that disability is a complex, multi-dimensional topic, this book presents case studies, original research, and practical applications related to society and cultural events about disability to highlight prominent issues related to diversity, equity, and inclusion. Initiatives While previous work examined disability through activism or historical lenses, this book explores contemporary industry practices and how current conversations are driving trends in the field. Divided into three parts related to journalism and news reporting, strategic communication, and health communication, the book provides readers with the knowledge and skills to create conversation that gives space to disability and facilitates advancement in inclusion. Filling a void in disability literature, this book will be of interest to scholars as well as undergraduate and graduate students in the fields of health communication, journalism, strategic communication, media studies, disability studies, public health, and medical sociology.

**Mediatization and Sociolinguistic Change** Jannis Androutsopoulos, 2014-09-04 This is the first volume to focus on the role of media in processes of linguistic change, one of the most contested issues in contemporary sociolinguistics. Its 17 chapters and five section commentaries present cutting edge research from variationist and interactional sociolinguistics, media linguistics, language ideology research, and minority language studies. The volume advances our understanding of linguistic change in a mediatized world in three ways. First, it introduces the notions of sociolinguistic change and mediatization to create a broader theoretical framing than the one offered by the media and language change. Second, it takes the discussion beyond the notions of influence and effect and the binary distinction of media vs. community language. Third, it examines the relation of sociolinguistic change and mediatization and from five complementary viewpoints media influence on linguistic structure, media engagement in interaction, change in mass and new media language, language ideological change, and the role of media for minority languages. Bringing these strands of sociolinguistic scholarship together, this volume examines their shared references and common lines of thinking.

*Fixing English* Anne Curzan, 2014-05-08 Over the past 300 years, attempts have been made to prescribe how we should and should not use the English language. The efforts have been institutionalized in places such as usage guides, dictionaries, and school curricula. Such authorities have aspired to fix the language, sometimes by keeping English exactly where it is but also by trying to improve the current state of the language. Anne Curzan demonstrates the important role prescriptivism plays in the history of the English language as a sociolinguistic factor in language change and as a vital meta-discourse about language. Starting with a pioneering new definition of prescriptivism as a linguistic phenomenon, she highlights the significant role played by Microsoft's grammar
