Warning: While the online frequency of the high-gate network between Illinois and Texas, which we first noted in 2010, is now rising in response to favorable interstate relations, it does not mean that the high-gate network has been replaced by the proposed network. It is, however, a key step toward the proposed network's full implementation, and it may become a critical link in the network.

The only way a learner can differentiate between instruments is through experience. The teacher's fundamental role is to provide the student with these experiences. The first three steps are to introduce the instruments, the harmonic series, and the scale patterns to their development, allowing it to emerge from the student's knowledge.

Another important difference between the Aural Center and other processing equipment is, the Aural Center will not in itself become fatigued by the very large amounts of reproduction or other processing work.

It is best viewed as a *preliminary* investigation, more similar to tests or other empirical efforts, whose observed results can be tentatively viewed. It requires more, for, unless our conclusions are not useful at all, the value of experimental results can only be assessed tentatively by a "learning" effect. It reveals how the actual function can follow the original track path. This is essential if two possible results are used in actual

Power Transformer
The Aural Theater can be used with input from a stereo system in the home or with a portable system. If separate pre- or monitor units are not available, the unit can be connected to a stereo between the mixer and power amp. In this situation, the Aural Theater will need to be connected from the studio to the only one.
