

# HENRY HUDSON

**Henry Hudson was born in England all around the year 1570. As a young man in this time, Henry worked as a cabin boy, running errands for the ship's captain and sailing on passenger and cargo ships. He worked his way up to captain, becoming famous for cattle, milk, eggs, and small passenger ships. As a captain, he was responsible for keeping a journal, and Hudson did this well and often.**

**Out of all the stories about Henry Hudson's life, one from his early journals and written records says his crew members started shouting their love messages with Henry Hudson.**

## **Henry Hudson's First Voyage**

**In 1607, Henry Hudson sailed from England as the captain of his own ship, the Hopewell. He was trying to find a shorter route to Asia through the North Pole. Remember, sailing a shorter route to Asia was very important for Spain, France, and England. On Asia, they could buy jewelry, silk, and spices that were not available in Europe.**

**Hudson traveled to the North Pole in 1608. He found the North Pole to be the most dangerous route to Asia.**

**During Hudson's first voyage, he sailed northward from England along the coast of Scotland. He was only 200 miles from the North Pole. He did not find the passage to Asia. He did, however, sail farther north than any other explorer before him. He also discovered new islands, animals, and plants not found on any other island in the Arctic.**

**Other: This dictionary should be kept around the living room, either because it's for grown-ups. In fact, Henry Hudson is often mentioned as the grandfather of the sailing industry.**
