Let There Be Light Mark L. Clifford, 2023-07-18 The remarkable success of twentieth century Hong Kong was driven by electricity The British colony s stunning export driven economic growth its status as a Cold War capitalist dynamo its energetic civil society its alluring urban modernity all of these are stories of electricity s transformative power *Let There Be Light* is a groundbreaking history of electrification in Hong Kong Mark L Clifford traces how a power company and its visionary founder jumpstarted Hong Kong s postwar economic rise and set in motion far reaching political and social change against the backdrop of Hong Kong s shifting relations with the People s Republic of China and the United Kingdom Clifford examines avowedly laissez faire Hong Kong s attempt to nationalize electricity companies and the longer term implications of

debates over the power supply for citizen activism and the development of civil society government involvement in tackling housing and other social issues and state controls on private businesses Clifford explores the effects of electrification on both grand politics and daily life In the geopolitical struggle of the Cold War Hong Kong became an explicitly anti Communist showcase of production and consumption Its bright lights and neon signs stood in contrast to the darkness and drabness of neighboring China Electricity transformed people s everyday lives allowing children to study at night streets to be lit and shops in a self consciously commercial mecca to stay open late Offering new perspectives on twentieth century Hong Kong Let There Be Light reveals electricity as a catalyst of modernization Who Are Godwin and Hopwood? Ben

Tosland,2024-06-17 First comprehensive monograph about the tropical architecture of Godwin and Hopwood in Nigeria After studying at the Architectural Association in London John Godwin and Gillian Hopwood moved to Nigeria where they significantly shaped the country s architectural landscape for more than sixty years When Nigeria became independent in 1960 following British dominance since the 19th century the couple worked to create architecture that was site specific modern and adapted to the climate relevant to reinforce Nigeria s aspirational political and economic policies In this richly illustrated monograph organised by typology Ben Tosland examines Godwin and Hopwood s form of tropical modernism and illuminates its contemporary meanings concluding with its relevance in times of climate crisis First comprehensive monograph about the architecture of Godwin and Hopwood Image rich publication on one of the most important architectural practices for post colonial independent Nigeria Insightful findings for passive structural cooling techniques
