## **Alvar Aalto Apartments:**

**Alvar Aalto Apartments** Alvar Aalto, Jari Jetsonen, Sirkkaliisa Jetsonen, 2004 Alvar Aalto was concerned about the social aspect in all building. This book contains not only a pictorial record of Aalto's collective housing but also an extensive discussion of his ideals about dwellings. *Alvar Aalto Houses* Jari Jetsonen, Alvar Aalto, Markku Lahti, 2005 During the course of a career spanning over 50 years Alvar Aalto designed nearly 100 single family houses. Many of them are architectural gems where his thoughts about dwelling and architecture come together. Aalto considered experimental building to be very important in his opinion there should always be an opportunity for experimentation in every project for it is only in that way that architecture can be promoted and quality improved for the good of the little man. It was specifically in the designing of single family houses that Aalto could realize new ideas. Aalto's single family houses can be divided into three groups: houses for individuals the client of which was nearly always a relative or friend; houses designed for industrial institutions or other communities; and type or standard houses. All the houses presented in *Alvar Aalto Houses* were originally designed for private clients. The book presents eight single family houses by Aalto from 1920s to the end of the 1960s built in Finland, Estonia and France. Book jacket. **Alvar Aalto Homes** Jari Jetsonen, 2018 The book presents 30 homes by Aalto from 1920s to the end of the 1960s built in Finland, United States, Germany, Switzerland, Estonia and France: single family houses, various apartments, blocks, student dormitories and summer homes. **Alvar Aalto** Richard Weston, Alvar Aalto, 1995 Drawing on his own experience and intimate knowledge of Nordic architecture in Scandinavia the author situates Aalto 1898-1976 within the realms of international modernism and Finnish culture and explores his inspirations: the Finnish landscape and vernacular traditions, Italian domestic architecture and Greek site planning as well as the work of architects such as Gunnar Asplund and Le Corbusier. The complete range of Aalto's work is examined through a study of recurring themes and through detailed investigations of key projects. Abundantly illustrated 10x11 75 c. Book News Inc. *Modern Housing Prototypes* Roger Sherwood, 1978 Here are 32 notable examples of multi family housing from many countries selected for their importance as prototypes. Designed by such masters as Frank Lloyd Wright, Le Corbusier, Mies van der Rohe and Alvar Aalto the buildings are illustrated with photographs, site plans, floor plans, elevations and striking axonometric drawings. **Aino and Alvar Aalto** Renja Suominen-Kokkonen, 2007 **Key Urban Housing of the Twentieth Century** Hilary French, 2008-10-28 A collection of housing designs built over the last hundred years illustrating innovative approaches. Fourth in the Key series with newly drawn plans suitable for study in architecture schools this volume will appeal to students of urban design and planning as well as architecture. Key developments covered include early apartment blocks, the projects of European modernism, high rise and large scale schemes and postmodernism. Exterior and interior photographs show materials, massing and context. 150 color photographs, 500 line drawings. **Aalto House** Alvar Aalto, Päivi Lukkarinen, Katariina Pakoma, 2012 **Alvar Aalto** Timo Koho, 1997 **Encyclopedia of Twentieth Century**
