

BASIC PRESS BRAKE OPERATOR FUNDAMENTALS

Fundamentals

This "Basic Press Brake Operator Fundamentals" program reviews basic procedures which everyone working on or around a press brake should follow. The program is designed to help the operator understand the basic fundamentals prior to operating the press brake. This should result in safer, more productive workplace.

Training

Basic fundamentals of operation should be explained to an employee before that individual is assigned to operate a machine. Using this video program will ensure that all your operators are presented with the same basic information. Leaving this task to an experienced employee places unreasonable burden on their time. Too often, important information is not communicated properly if left to chance. This program can supplement more detailed training relating to your specific machine and operation. Additional programs are available from CINCINNATI.

Contents

This "Basic Press Brake Operator Fundamentals" program is contained on a 30 minute video. The operator is presented with a progression of framed information which will step him/her through five main sections which make up the program. These include How Press Brakes are Used, Applicable Standards and Safety Codes, Instructions on Safe Use, Press Brake Set-Up and Safeguarding. The program is supplied on One USB Stick and requires approximately 30 minutes for presentation.

To order, please fax your purchase order to Cincinnati Incorporated; 513-367-7399, part # 426952 (Basic Press Brake Operator Fundamentals) for the value of \$125.00 EA. The training program will be shipped postage paid to your location within two weeks.
