The Naked Australian Constitution Ian Killey, 2022-07-07 Despite the Australian Constitution having been one of the most stable since its commencement in 1901 it is becoming fatally flawed The Naked Australian Constitution examines these flaws and the lack of public appreciation of those defects This is due to several serious errors including the racial basis of its origin and the misleading nature of its text with the High Court having interpreted it in a remarkably subjective manner undermining the few express requirements and freedoms in the Constitution while also applying concepts that are not required by the constitutional text As a result the Constitution is now what the High Court says it is instead of what it was expected to be by its drafters Most Australians have no knowledge of the Constitution or its operation but with the growing subjective application of the Constitution this constitutional digression requires remedy by a Constitutional review Ian Killey argues that without review the Australian people will eventually see the Australian Constitution for what it is rapidly becoming an Emperor with no clothes

The Nature of North Head Peter Macinnis, 2024-08-01 The notion of a vade mecum it literally means go with me has largely disappeared from use but this ebook is a guide for strangers and locals to carry on phone or tablet when they visit one of Australia's biological wonders a place where 500 species of plant live on 250 hectares a square mile in old currency of desperately poor sandy soil along with an amazing range of animal and other life forms The vade mecum is back People entering Sydney Harbour or taking a ferry to Manly see North Head to starboard and admire the 80 metre cliffs but they don't realise that they are looking at a sand tied island a piece of rock which is over 200 million years old and even the locals don't know that we have so many plant species growing there not to mention ants pythons butterflies weevils water dragons ticks birds possums dragonflies bandicoots echidnas tree snakes lichens stick insects snails spiders lichens fungi colourful bacteria bird of paradise flies ant lions frogs and much more on the 10 000 year old sandhills that formed in the last Ice Age Peter Macinnis is biology trained and cares about rocks but prefers to call himself a naturalist and he has played on and walked over the headland for more than 70 years how much more he won't say admitting only to being of advanced middle age This is a revised version August 2024 of a print book optimised for reading on your mobile phone or tablet He has worked as a volunteer on land care projects on North Head since 2013 and his photos of his finds fill this book He knows where the bodies are buried and they aren't all in the Third Quarantine Cemetery Peter wins awards when he writes for children and while this book is written for teens and up the clarity is there to allow eight year olds who resemble him at that age to learn a great deal about the rocks plants animals and lesser life forms all of which may be found in this naturalists wonderland
