Banks Julia Alvarez Peter Carey Hilary Mantel Colm Tóibín Anne Enright Colum McCann and Michael Cunningham have authored spectacular biographical novels which have won some of the world's most prestigious awards for fiction. However, in spite of the prominence of these authors' works and awards, there has been considerable confusion about the nature of biofiction. This collection of process pieces and academic essays from authors and scholars of biofiction defines the nature of the aesthetic form, clarifies why it has come into being, specifies what it is uniquely capable of signifying, illustrates how it pictures the historical and critiques the political, and suggests potential directions for future studies. This book was originally published as a special issue of *Auto Biography Studies*. [Ponyville Confidential](#) Sherilyn Connelly, 2017-03-21. Beloved by young girls around the world, Hasbro's My Little Pony franchise has been mired in controversy since its debut in the early 1980s. Critics dismissed the cartoons as toy advertisements and derided their embrace of femininity. The 2010 debut of the openly feminist My Little Pony: Friendship Is Magic renewed the backlash as its broad appeal challenged entrenched notions about gendered entertainment. This first comprehensive study of My Little Pony explores the history and cultural significance of the franchise through Season 5 of Friendship Is Magic and the first three Equestria Girls films. The brand has continued to be on the receiving end of a sexist double standard regarding commercialism in children's entertainment, while masculine cartoons such as the Transformers have been spared similar criticism.
