Love Is Love Is Love Aaron C. Thomas, 2023-03-24

The politics of Broadway musicals matter a great deal more to U.S. American culture than they appear to mean and they are especially important to mainstream politics surrounding sex, gender, and sexuality. *Love Is Love Is Love* looks to the Broadway musicals of the past decade for help understanding the current state of LGBTQ politics in the United States. Through analyses of *Promises, Promises*, *Newsies*, *Hedwig and the Angry Inch*, *The Color Purple*, and *Frozen*, this book attempts to move past the question of representational politics and asks us instead to think in more complex ways about LGBTQ identity: what LGBTQ politics are and the politics of Broadway musicals themselves. Producing new complex readings of all five of these musicals, author Aaron C. Thomas places each of them within the context of the LGBTQ politics of their day. Some of the issues the book treats are controversies of casting, the closetedness and openness of musical theatre, LGBTQ identities, adaptation from movies into musicals, and the special power of the musical form. By examining how these shows differ from the books and movies on which they're based, *Love Is Love Is Love* places contemporary LGBTQ political tensions and conversations in a new light, making this an essential companion for students and scholars of contemporary theatre, musical theatre, cultural studies, queer studies, and gender studies.

Cinematic Digital Television Chris Comerford, 2022-12-20

Chris Comerford explores cinematic digital television as an artistic classification and an academic object of study and illuminates the slippage in definitions of previously understood media forms. The growth of television as an artistic, informative medium has given rise to shifts in the aesthetic style of the programmes we watch, and this book outlines these shifts along with the contemporary debates and critical theory surrounding them. Comerford looks at the forms and aesthetics of television, the production standards influencing streaming television, and the agency of audiences, and provides case studies of key TV shows illustrating these shifts, including *Twin Peaks*, *The Return*, *WandaVision*, *Hacks*, and *Russian Doll*. Navigating the levels of production and reception in cinematic digital television, the book uses film-inspired TV as a lightning rod for understanding our narrative screen media landscape and the classifications we use to negotiate it. As an essential reading for both scholars and students of media and television studies, this book provides a much-needed consideration of the changing landscape of television.

Each person has a God-given right to freedom of choice and to the pursuit of happiness, and every person holds the responsibility of not infringing on that right. changes we may not all agree on but whether we like it or not in one way or the other each of our lives is affected Thus it is critically important for every person to gain a new perspective on and an appreciation for the changes we all have to deal with In this new era the face of marriage and the development of the family can be seen as either enhancing or depreciating depending on the lens through which it is viewed and the framing of those lens Then though consideration must be given to every emotion surrounding one s views it is important that new principles of self conduct and leadership be developed and implemented across the board That development and implementation must lead in the direction of alleviating the divisiveness and bitterness that destroy the quality of all our lives This is necessary such that the love that bonds lives and communities together can emerge Thus this book seeks not to point fingers or to blame anyone but instead to lead every reader to a table of fresh thoughts and in an atmosphere that will fertilize those thoughts and to the growth of all
