## **Ambivalent Europeans Ritual Memory And The Public Sphere In Malta:**

**Ambivalent Europeans** Jon P. Mitchell, 2001-10 *Ambivalent Europeans* examines the implications of living on the fringes of Europe In Malta public debate is dominated by the question of Europe both at a policy level whether or not to join the EU and at the level of national identity whether or not the Maltese are European Jon Mitchell identifies a profound ambivalence towards Europe and also more broadly to the key processes of modernisation He traces this tendency through a number of key areas of social life gender the family community politics religion and ritual *Colonial Memory and Postcolonial Europe* Andrea L. Smith, 2006-08-21 I ntersects with very active areas of research in history and anthropology and links these domains of inquiry spanning Europe and North Africa in a creative and innovative fashion Douglas Holmes Binghamton University Maltese settlers in colonial Algeria had never lived in France but as French citizens were abruptly repatriated there after Algerian independence in 1962 In France today these pieds noirs are often associated with Mediterranean qualities the persisting tensions surrounding the French Algerian War and far right anti immigrant politics Through their social clubs they have forged an identity in which Malta not Algeria is the unifying ancestral homeland Andrea L Smith uses history and ethnography to argue that scholars have failed to account for the effect of colonialism on Europe itself She explores nostalgia and collective memory the settlers liminal position in the colony as subalterns and colonists and selective forgetting in which Malta replaces Algeria the true homeland which is now inaccessible fraught with guilt and contradiction The study provides insight into race ethnicity and nationalism in Europe as well as cultural context for understanding political trends in contemporary France *Malta in the European Union* Mark Harwood, 2016-05-13 Malta has bucked the trend of its EU Mediterranean neighbours in many ways This smallest of EU states barely dipped into recession during the global financial crisis and remains a stable member of the Eurozone whilst also having one of the lowest infringement rates and highest transposition of EU law records amongst the 28 member states Providing the first comprehensive study of Malta s complex road to EU membership this book looks at the impact of membership on the country s political structures and processes and explains the principal factors that have conditioned the country s Europeanization experience Reflecting Malta s unique and often contentious road to membership the book explores the historical context and outlines how Maltese processes and policies have changed since membership and whether a causative link exists between these changes and Malta s membership of the EU A wide range of primary and secondary sources facilitate the study complemented by a series of interviews with a broad range of Malta s political and social actors as well as individuals from EU institutions This depth of analysis enables a holistic view of Malta s first decade of EU membership and helps establish the fundamental characteristics of Malta s unique Europeanization experience **Powers of Good and Evil** Paul Clough, Jon P. Mitchell, 2001 Using a range of examples from Surinamese zombies to American horror films this volume demonstrates the extent to which evil imagery is linked to a fear of excess It examines in depth key themes in the anthropology of belief The Europeanisation of Party

Politics in Malta Jean Claude Cachia, 2023-02-21 This book examines the Europeanisation of party politics in Malta. It evaluates the influence of Europeanisation on the political system which is based on a two party system, polarisation and clientelism. Malta is the smallest European Union (EU) member state which joined the EU in 2004. The road toward membership was fraught with contentious and emotionally charged debates. This book explores the relationship between Maltese political parties and the EU, the politicisation and framing of the European Union by political parties and the impact of the European Union on Malta's political system. The book further discusses more contentious recent events which made headlines at the EU level including the Panama Papers scandals, the Individual Investment Programme and the assassination of journalist Daphne Caruana Galizia. The book will appeal to students, scholars and researchers of political science and international relations interested in a better understanding of electoral studies, Europeanisation, European integration as well as the Maltese political system and party politics.

Representations on the Margins of Europe Tsypylma Darieva, Wolfgang Kaschuba, 2007 Since the first Baltic nations joined the European Union, debates about reorganizing post Soviet republics have grown increasingly heated. How do citizens in the Baltic and South Caucasian states cope with EU expansion and the feeling of existing simultaneously inside and outside Europe? Based on ethnographies and archival work, *Representations on the Margins of Europe* offers new insights into shifts in the national identity, cultural geography and symbolic boundaries. This exploration of local responses to Europe's new hegemony will appeal to anyone interested in anthropology, history and politics.

Events and Infrastructures Barbara Grabher, Ian R. Lamond, 2024-05-13 Innovative and the first of its kind, this informative and multidisciplinary book explores the socio cultural significance inherent in event infrastructures. While mainstream event management literature addresses event infrastructures mainly through its operational relevance, this carefully compiled edited volume takes infrastructures as an analytical point in respect to its social, political, economic and cultural potential. The study of events, borrowing from the ongoing social scientific debates on the geography, sociology and anthropology of infrastructures, critical questions are posed in relation to the event contexts. With references to events in Argentina, Malawi, Spain and the UK among others, the volume combines an international perspective with a highly relevant subject for contemporary event management education. By bringing together theoretical as well as empirical readings on the question of event infrastructures from a critical point of view, the debates are relevant to practitioners and researchers as well as undergraduate and postgraduate students in the field of events, leisure, tourism, anthropology, sociology, geography and urban planning among others.
