Sternberg, 1999-06-03 In this groundbreaking work Robert Sternberg opens the book of love and shows you how to discover your own story and how to read your relationships in a whole new light What draws us so strongly to some people and repels us from others What makes some relationships work so smoothly and others burst into flames Sternberg gives us new answers to these questions by showing that the kind of relationship we create depends on the kind of love stories we carry inside us Drawing on extensive research and fascinating examples of real couples Sternberg identifies 26 types of love story including the fantasy story the business story the collector story the horror story and many others each with its distinctive advantages and pitfalls and many of which are clashingly incompatible These are the largely unconscious preconceptions that guide our romantic choices and it is only by becoming aware of the kind of story we have about love that we gain the freedom to create more fulfilling and lasting relationships As long as we remain oblivious to the role our stories play we are likely to repeat the same mistakes again and again But the enlivening good news this book brings us is that though our stories drive us we can revise them and learn to choose partners whose stories are more compatible with our own Quizzes in each chapter help you to see which stories you identify with most strongly and which apply to your partner Are you a traveler a gardener a teacher or something else entirely Love is a Story shows you how to find out    **Passionate Friendship** Deborah M. Shamo, 2012-03-13 Shojo manga are romance comics for teenage girls Characterized by a very dense visual style featuring flowery backgrounds and big eyed androgynous boys and girls it is an extremely popular and prominent genre in Japan Why is this genre so appealing

Where did it come from Why do so many of the stories feature androgynous characters and homosexual romance Passionate Friendship answers these questions by reviewing Japanese girls print culture from its origins in 1920s and 1930s girls literary magazines to the 1970s revolution shojo manga when young women artists took over the genre It looks at the narrative and aesthetic features of girls literature and illustration across the twentieth century both pre and postwar and discusses how these texts addressed and formed a reading community of girls even as they were informed by competing political and social ideologies The author traces the development of girls culture in pre World War II magazines and links it to postwar teenage girls comics and popular culture Within this culture as private and cloistered as the schools most readers attended a discourse of girlhood arose that avoided heterosexual romance in favor of S relationships passionate friendships between girls This preference for homogeneity is echoed in the postwar genre of boys love manga written for girls Both prewar S relationships and postwar boys love stories gave girls a protected space to develop and explore their identities and sexuality apart from the pressures of a patriarchal society Shojo manga offered to a reading community of girls a place to share the difficulties of adolescence as well as an alternative to the image of girls purveyed by the media to boys and men Passionate Friendship's close literary and visual analysis of modern Japanese girls culture will appeal to a wide range of readers including scholars and students of Japanese studies gender studies and popular culture
