## When to Cite

You need to cite when:

- using a direct quotation, even if it is in quotation marks.
- using facts that are not common knowledge (what the reader can reasonably be expected to know).
- paraphrasing or rewriting the author's ideas.
- summarizing the data or argument of an author.
- using the key words or phrases from the author or using synonyms.
- mentioning the author's name in your text.
- writing a sentence that mostly consists of your own thoughts, but you have made a reference to another author's ideas.

When in doubt, err on the side of caution, and cite.
