The Everything Store Brad Stone, 2013-10-15 The authoritative account of the rise of Amazon and its intensely driven founder Jeff Bezos praised by the Seattle Times as the definitive account of how a tech icon came to life Amazon.com started off delivering books through the mail. But its visionary founder Jeff Bezos wasn't content with being a bookseller. He wanted Amazon to become the everything store offering limitless selection and seductive convenience at disruptively low prices. To do so he developed a corporate culture of relentless ambition and secrecy that's never been cracked. Until now Brad Stone enjoyed unprecedented access to current and former Amazon employees and Bezos family members giving readers the first in-depth fly on the wall account of life at Amazon. Compared to tech's other elite innovators Jobs Gates Zuckerberg Bezos is a private man. But he stands out for his restless pursuit of new markets leading Amazon into risky new ventures like the Kindle and cloud computing and transforming retail in the same way Henry Ford revolutionized manufacturing. The Everything Store is the revealing definitive biography of the company that placed one of the first and largest bets on the Internet and forever changed the way we shop and read

Rocket Billionaires Tim Fernholz, 2018-03-20 This smart analysis of the New Space sector goes inside the rapid rise and dramatic rivalry of private space companies SpaceX and Blue Origin. The New York Times Book Review For the outsize personalities staking their fortunes on spaceships the new race to explore space could be a dead end a lucrative opportunity or the key to humanity's survival. Rocket Billionaires shines a light on Elon Musk and Jeff Bezos as they attempt to make history reinvent the space economy and feed their own egos. Beyond these two towering figures Tim Fernholz introduces a supporting cast of equally fascinating entrepreneurs from the irrepressible British mogul Richard Branson to the satellite internet visionary Greg Wyler. Fernholz's fly on the wall reporting captures an industry in the midst of disruption. While NASA seeks to preserve its ambitious space program traditional aerospace firms like Boeing and Lockheed Martin scramble to adapt to new competitors. Lobbyists tussle over public funds and lawmakers try to prevent this new space race from sparking global conflict. It's a high stakes marathon that Fernholz recounts with expert analysis and revealing detail. Featured on NPR and PBS's SciTech Now and in Fast Company, Forbes and the Wall Street Journal
