Black Belt Yoga

Al Case,2015-04-29 Yoga has been around for thousands of years for one reason it works It works to cure people it works for stronger bodies and increased awareness It works to increase life spans and it works to make people immune to injury and ill health It works in every aspect of the word The interesting thing is that this workability has occurred in the presence of almost no real structure Yoga is

invariably taught a piece at a time at the whim of the instructor So what would happen if the discipline of Yoga was structured logically What would happen if there was a method by which one could travel through the asanas understand the meditations on a gradient basis and delve into the soul one precise and orderly inch at a time What would happen is that yoga would be faster and easier to learn and people would get more out of it Much more The mysticism of the scriptures would fall to logic become understandable and the confusions of concepts and principles that have been obscured through their journey through languages and cultures would end This then is the essence of Black Belt Yoga an orderly system structured according to the lessons and principles of an art that has been in existence for as long as Yoga but in a more ordered manner Guaranteed a journey into Black Belt Yoga will enhance your discipline increase your understanding and get you to the end of the path in record time About the author Al Case entered his first martial arts dojo in 1967 He lived through the golden age of martial arts and studied nearly every martial art that came down the pike He became a writer for the magazines and had his own column in Inside Karate He discovered Yoga in the nineties and quickly adapted all that he had learned in the martial arts to Yoga Martial Arts a system of meditation in motion transformed Yoga a system of meditation with no motion into something he never imagined but welcomed fervently
