**Transnational Zombie Cinema, 2010 to 2020** John R. Ziegler, 2023-10-02 *Transnational Zombie Cinema 2010 to 2020* Readings in a Mutating Tradition examines selected films produced outside the United States in the second decade of the millennial zombie renaissance following the global effects of the Great Recession. These readings analyze how the films adapt the zombie myth to localized anxieties pertaining to neoliberal capitalism, globalization, gender and sexuality, national identity, history and trauma, and self-definition within and without culture and social institutions. In tracing these variations, John R. Ziegler investigates not only better known films such as South Korea's *Train to Busan* (2016) and Cuba's *Juan of the Dead* (2011) but also lesser known examples such as Malaysia's *KL24 Zombies* (2017), Italy's *The End* (2017), and India's *Rise of the Zombie* (2010). These films, Ziegler argues, demonstrate the continued significance of the zombie as a flexible, powerful tool for thinking about contemporary concerns across the globe and suggest that the zombie myth still has plenty of undead life in it as it continues to mutate and circulate in transnational cinema.

**The Palgrave Handbook of the Zombie** Simon Bacon, 2025-12-26 This Handbook is a unique encompassing overview of the figure of the Zombie. This project will show that while there are many zombies and many texts about zombies, it is still often mistakenly viewed as little more than a sub-genre of Horror. However, its history and multiplicity warrants something far more ambitious in terms of cataloguing and defining its many forms, types, and possible readings. Consequently, this Handbook proposes to feature elements of all the many and varied representations, narratives, and theories of the zombie across cultures, histories, and mediums to show that it is not just as multifaceted a story world but is much more akin to a genre in its own right or what we might term the Zombie Megatext.

**Quality Telefantasy** Andrew Lynch, 2022-03-28 This book explores the relatively new genre of Quality Telefantasy and how it has broadened TV taste cultures by legitimating and mainstreaming fantastical content. It also shows how the rising popularity of this genre marks a distinct and significant development in what kinds of TV are culturally dominant and critically regarded. By expanding and building on the definition of US Quality TV, this book brings together a number of popular science fiction, fantasy, and horror TV series, including *Game of Thrones*, *The Walking Dead*, and *Westworld*, as case studies which demonstrate the emergence of the Quality Telefantasy genre. It looks at the role of technology, including internet recap culture and subscription video on demand, distribution in Quality Telefantasy's swift emergence and analyses its success internationally by considering series created outside the US, like *Kingdom* (South Korea), *Netflix and Dark* (Germany), *Netflix*. The book argues that Quality Telefantasy series should be

considered a part of the larger Quality TV super genre and that the impact they are having on the global TV landscape warrants further investigation as it continues to evolve This is a valuable text for students and scholars studying or undertaking research in the areas of television studies new media and pop cultural studies **Does It Work?: 10**
