 trauma loss deprivation bereavement or abuse In recent years there has been growing acceptance that war related stressors
 have the potential to pose a risk to health Epidemiological studies also reveal the health consequences associated with war
 and trauma and agree that post traumatic stress disorder and depression are common in war affected populations Since the
 turn of the last century there have also been changes in the conception of war Nowadays wars have evolved into a new form
 that can affect larger masses instead of hand to hand combat with cannons and rifles War is an artificial disaster and differs
 from the kind of natural pandemic disaster that affects the whole world Countless deaths forced abandonment of homes
