Operating Manual A320:

Airbus A320 Crew Manual Facundo Conforti, 2020-03-11 In this manual you as a pilot will learn about main flight concepts and how the A320 works during normal and abnormal operations. This is not a technical manual about systems it's a manual about flight philosophy. This manual is based on the original Airbus manual called The Flight Crew Training Manual which is published as a supplement to the Flight Crew Operating Manual FCOM and is designed to provide pilots with practical information on how to operate the Airbus aircraft. It should be read just like a supplement and not for real flight. In this case refer to the original FCOM from Airbus. Let's start to fly the amazing A320 with our collection of books and remember it's not a technical manual so enjoy it.

A320 Airbus Industrie, 1989 *Man-Machine-Environment System Engineering* Shengzhao Long, Balbir S. Dhillon, 2017-08-21 These proceedings showcase the best papers selected from more than 500 submissions introducing readers to the top research topics and the latest developmental trends in the theory and application of Man Machine Environment System Engineering MMESE. This research topic was first established in China by Professor Shengzhao Long in 1981 with direct support from one of the greatest modern Chinese scientists Xuesen Qian. In a letter to Shengzhao Long from October 22nd 1993 Xuesen Qian wrote: You have created a very important modern science and technology in China. MMESE primarily focuses on the relationship between Man Machine and Environment studying the optimum combination of related Man Machine Environment systems. In this paradigm Man refers to working people as the subject at the workplace e.g. operators decision makers. Machine is the general name for any object controlled by Man including tools machinery computers systems and technologies and Environment describes the specific working conditions under which Man and Machine interact e.g. temperature noise vibration hazardous gases etc. In turn the three goals of optimization are to ensure safety efficiency and economy in this context. These proceedings present interdisciplinary studies on the concepts and methods of physiology psychology system engineering computer science environmental science management education and other related disciplines. They offer a valuable resource for all researchers and professionals whose work involves interdisciplinary areas touching on MMESE subjects.
