An Introduction to Global Studies Tuo Cai, Zhenye Liu, 2022-07-30 Since the 1950s, globalization has been an increasingly irresistible trend and one that has exerted a tremendous impact on the political, economic, military, environmental and social fortunes of mankind. And yet, existing theories in humanities and social sciences have been fundamentally built upon the traditional nation-state model. These two volumes, a pioneering work on global studies to be published out of China, aims at creating a new theoretical framework against the backdrop of globalization. Volume 1 introduces the core concepts and discusses the critical issues of globalization while the editors redefine notions of politics, economics, law and globality while deploying globalization as a theoretical framework. Volume 2 examines the multi-level and multi-dimensional nature of globalization, analysing processes and systems of global society in the light of globalization and exploring the construction of a stable and rational global order. These two volumes of global studies are an essential reference for scholars and students in politics, economics, international relations and law.
