## **Australian Intellectual Property Law:**

*Australian Intellectual Property Law* Mark J. Davison, Ann L. Monotti, Leanne Wiseman, 2020-09-03 The fourth edition of Australian Intellectual Property Law provides a detailed and comprehensive yet concise and accessible discussion of intellectual property law in Australia. This edition has been thoroughly revised to cover the most recent developments in intellectual property law including significant case law and discussion of the proposed and enacted amendments to the Copyright Act 1968 Cth the Patents Act 1990 Cth and the Plant Breeder's Rights Act 1994 Cth. The text has been restructured but continues to provide a complete discussion of the black letter aspects of the law. Commencing with copyright then followed by design law, confidential information, plant breeder's rights, then finally trade marks. The work ends with a chapter on enforcing legal rights and civil remedies. Written by highly respected intellectual property law researchers this text is an invaluable resource for both undergraduate and postgraduate students, academics and other professionals working with intellectual property.

*Australian Intellectual Property Law* Mark Davison; Ann Monotti; Leanne Wiseman, 2015

*Australian Intellectual Property* Kathy Bowrey, Michael Handler, Dianne Nicol, 2010 Intellectual property laws now impact on our daily lives in much more obvious ways than in the past and affect the way we access or engage with technology, medicine, nature, education and entertainment. This text uses broader social and economic contexts to locate the black letter law in the everyday, making it an accessible introduction that will equip students with a foundation of legal knowledge for either entry level legal practice or to progress into more specialised postgraduate study of intellectual property law. In relation to the key areas copyright, design, patent, trade mark, confidential information and deceptive and misleading conduct, the book covers a policy overview of the legal category, its history and emerging trends, an explanation of the structure of the legislation and associated rights, leading case extracts to elucidate key legal principles and tensions, discussion of the law in practice and the administration of the rights.

**Australian Intellectual Property Law** Mark J. Davison, Ann L. Monotti, Leanne Wiseman, 2011-11-18 Intellectual property law in Australia has changed dramatically in the last decade and continues to change. Developments in technology, the rise of the internet, the globalisation of trade and the increasing importance of superbrands, trade marks with global appeal, have all affected the laws surrounding intellectual property. Furthermore, globalisation has resulted in greater pressure on intellectual property owners to expand their rights as they endeavour to capture the potential benefits of ownership in an increasingly affluent and integrated world economy. Australian Intellectual Property Law 2nd edition has been fully revised to take into account these significant case and legislative developments in trademarks, copyright and patents law. This book offers students and legal professionals a detailed discussion of the black letter aspects of the law with a primary emphasis on legal principles and complexities.

**Australian Intellectual Property Law** Mark Davison, Ann Monotti, Leanne Wiseman, 2016 Updated to include recent important developments in Australian intellectual property law, this is an essential text for students and professionals.

**Patent Law in Australia** Colin Bodkin, 2018-11-13 Patent Law in Australia Third Edition continues to be an indispensable guide to obtaining, maintaining, enforcing and challenging the validity of patents in Australia. Balancing both the practical nature of IP Australia processes and in-depth analysis of statute and case law, Patent Law in Australia Third Edition navigates every aspect of the patenting process with detailed commentary on the law pertaining to each stage. Since the last edition published in 2013, there has been a steady flow of case law developments enriching the jurisprudence on patents in Australia. There have been over 70 Federal Court decisions, a similar number of IP Australia patent decisions and High Court consideration of emerging issues. The Third Edition has been thoroughly updated to reflect these. Among the most significant developments are The High Court's controversial decision which ruled that naturally occurring nucleic acids are inherently unpatentable (*D'Arcy v Myriad Genetics Inc* 2015), The Federal Court decision to resolve a lingering question regarding the correct approach to be taken when determining whether a claimed invention was obvious (*AstraZeneca v Apotex* 2014). Numerous Federal Court decisions relating to important areas including patentability of business methods, describing the best method of carrying out the invention, fair basis and claim breadth requirement that a specification describe the invention fully, important developments relating to novelty, the forms of infringement and many more significant matters. The Third Edition is substantially revised to reflect these developments, ensuring Patent Law in Australia continues to provide the most respected and effective guide for patent attorneys, intellectual property lawyers and barristers.

**Global Intellectual Property Law** Graham Dutfield, Uma Suthersanen, 2008-01-01

the book is enlightening for practitioners who are often required to take into account global considerations when advising clients. It would be of particular interest to policy makers in the intellectual property field. Australian Intellectual Property Law Bulletin Dutfield and Suthersanen have skillfully captured in one concise volume all the important things you need to know about international intellectual property law. The materials are accessible, timely, methodically presented and at times critical. The book's detailed in-depth and comparative analyses provide helpful insights into the increasingly complex international intellectual property system. Global Intellectual Property Law is not only an effective textbook for students interested in the subject but a desktop companion for policymakers and professionals who need a quick and up-to-date overview of global intellectual property issues. Peter K Yu Drake University US and Zhongnan University of Economics and Law China. Today global intellectual property rules affect everything from poor people's access to essential medicines to farmers' rights in seeds to access to knowledge on the Internet. But at the same time that pundits declare that intellectual property has come of age, this body of law is more contested than ever, with critics asking whether

intellectual property is even necessary to stimulate innovation and whether and how intellectual property ought to be tailored to address the health and developmental needs of the global South Dutfield and Suthersanen's Global Intellectual Property Law is a timely and lucid contribution to the field. This tome covers every hot button area of international intellectual property law and policy from debates over the affect of intellectual property on development to controversy over biotechnology and property rights in life to claims by indigenous people and developing countries for new property rights in traditional knowledge. Dutfield and Suthersanen describe the current terrain comparing North American, European and developing world approaches much to their credit they do not shy away from describing points of tension among global actors. Global Intellectual Property Law is a must have for scholars and practitioners in the field for whom I anticipate the book will become a trusted and oft used reference on their bookshelf. The book is clearly written and engaging enough to be perfect for students or laypersons interested in acquiring a comprehensive and critical appraisal of the field. Madhavi Sunder (University of California Davis US) Dutfield and Suthersanen have succeeded in writing an engaging treatise that offers a truly modern perspective on intellectual property today. With examples from every continent from every level of jurisdiction national, regional, international their study covers all the traditional fundamentals of intellectual property law as well as the current critical interrogations that their development raises. It is a book with character. Ysolde Gendreau (Université de Montréal Canada) Global Intellectual Property Law by Dutfield and Suthersanen provides a broad overview of the issues at stake concerning fair and effective ways to organize the information resources upon which the well being of us all depends. The book highlights international and comparative perspectives on IP law and policy. Although primarily targeted at postgraduate level students the book is enlightening also for practitioners and a must read for all policy makers and opinion leaders in the IP field.
