American Revolution Projects For Fourth Grade:

What Every 4th Grade Teacher Needs to Know Mike Anderson, 2010 You're teaching fourth grade this year. What do you need to know? Mike Anderson gives you practical information about daily routines, furniture, and much more. After a concise review of fourth graders' common developmental characteristics, Mike explains how to adjust your classroom and your teaching to fit these common characteristics. The result: students can learn and you can teach with minimum frustration and maximum ease and joy. In clear, plain writing peppered with classroom stories and examples, Mike shares practical know-how on topics like these: Arranging a circle of desks and tables; Choosing and storing supplies; Scheduling a child-centered day and teaching daily routines; Planning special projects and field trips that maximize learning and build community; Understanding the special concerns of fourth graders' parents and finding the best ways to communicate with them. **Resources in Education**, 1993

The report has three main purposes: 1) to explore procedures for collecting classroom-based writing from students around the country; 2) to develop methods for describing and classifying the variety of writing submitted; and 3) to create general scoring guides that could be applied across papers written in response to a variety of prompts or activities. The report is divided into four chapters. Following an introduction, the first chapter describes the writing received from the students and information from participating teachers about the activities that generated the writing. Chapter 2 explains the procedures used to evaluate the writing students submitted, as well as the results of this evaluation. Chapter 3 compares the results of the NAEP 1990 writing assessment with the analysis of participants' school-based writing samples and summarizes the lessons learned from the portfolio study. Chapter 4 contains a set of sample papers further illustrating how the evaluative guides can be applied and presenting a sense of the range and depth of writing received from participating students. Appendixes contain information on demographic characteristics and on students' performance by process strategies.
