The Varieties of Nonreligious Experience Jerome P. Baggett, 2019-07-09 A fascinating exploration of the breadth of social emotional and spiritual experiences of atheists in America Self identified atheists make up roughly 5 percent of the American religious landscape comprising a larger population than Jehovah's Witnesses Orthodox Christians Muslims Buddhists and Hindus combined In spite of their relatively significant presence in society atheists are one of the most stigmatized groups in the United States frequently portrayed as immoral unhappy or even outright angry Yet we know very little about what their lives are actually like as they live among their largely religious and sometimes hostile fellow citizens In this book Jerome P Baggett listens to what atheists have to say about their own lives and viewpoints Drawing on questionnaires and interviews with more than five hundred American atheists scattered across the country *The Varieties of Nonreligious Experience* uncovers what they think about morality what gives meaning to their lives how they feel about religious people and what they think and know about religion itself Though the wider public routinely understands atheists in negative terms as people who do not believe in God Baggett pushes readers to view them in a different light Rather than simply rejecting God and religion atheists actually embrace something much more substantive lives marked by greater integrity open mindedness and progress Beyond just talking about or to American atheists the time is overdue to let them speak for themselves This book is a must read for anyone interested in joining the conversation

In the Beginning William Bennett, 2015-12-04 In *The Beginning* offers an abridged reading of the holy book found in Christian homes and churches as viewed from a secular perspective Commenting both on familiar stories and on those that are never discussed at Sunday School or preached from the pulpit it offers up a dose of humour mixed with some serious commentary Sometimes willfully naïve sometimes irreverent and sometimes just a bit serious this book analyzes the printed words of the holy book and not the imaginative interpretations of generations of theologians The central character in the story is a being who exists outside of space and time as we perceive it who is orders of magnitude more intelligent than any human who is so different from us that we cannot even begin to imagine him and who configured our entire cosmos in just six days His name is Tom and he is an irresponsible youth living in a star system known as Ko in a parallel universe Well who did you think I was talking about The universe that Tom designs turns out far from perfect but he does make an honest effort to do the right thing Sadly he just can't seem get any cooperation whatsoever from the dominant species on the one little planet that he decided to infuse with the miracle of life

Religion and the New Atheism Amarnath Amarasingam, 2010 The term new atheism has been given to the recent barrage of bestselling books written by Richard Dawkins Sam Harris Daniel Dennett Christopher Hitchens and others These books and their authors have had a significant media presence and have only grown in popularity over the years This book brings together scholars from religious studies science sociology of science philosophy and theology to engage the new atheism and place it in the context of broader scholarly discourses This volume will serve to contextualize and critically examine the

claims arguments and goals of the new atheism so that readers can become more informed of some of the debates with which the new atheists inevitably and at times unknowingly engage This collection will prove to be most valuable to readers who wish to understand the implications and phenomenal success of the new atheism from a multidisciplinary perspective The editor is to be congratulated for assembling such an impressive list of contributions John F Haught Senior Fellow Science Religion Woodstock Theological Center George town University The new atheism a species of secular fundamentalism has excited a great deal of comment and controversy in recent years Religion and the New Atheism raises the discourse to a new level Randall Balmer Episcopal Priest and author of The Making of Evangelicalism Amarasingam s collection of original essays dealing with various aspects of the recent work of new atheists is a most engaging read The chapters included offer a wide array of perspectives touching on numerous aspects and angles of New Atheism and its relationship to contemporary religion While I most definitely did not agree with all of the contributions in the volume and while I am generally more supportive of the new atheists than I am of their detractors I found this volume over all to be a compelling engrossing and provocative contribution Phil Zuckerman Associate Professor of Sociology Pitzer College Author of Society Without God

Challenging the New Atheism Aaron Shepherd,2020-08-31 This book presents a pragmatic response to arguments against religion made by the New Atheism movement The author argues that analytic and empirical philosophies of religion the mainstream approaches in contemporary philosophy of religion are methodologically unequipped to address the Threefold Challenge made by popular New Atheist thinkers such as Richard Dawkins Sam Harris Christopher Hitchens and Daniel Dennett The book has three primary motivations First it provides an interpretation of the New Atheist movement that treats their claims as philosophical arguments and not just rhetorical exercises or demagoguery Second it assesses and responds to these claims by elaborating four distinct contemporary philosophical perspectives analytic philosophy empirical

philosophy continental philosophy and pragmatism as well as contextualizing these perspectives in the history of the philosophy of religion Finally the book offers a metaphilosophical critique returning again and again to the question of method In the end the author settles upon a modified version of pragmatism that he concludes is best suited for articulating the terms and stakes of the God Debate Challenging the New Atheism will be of interest to scholars and students of American philosophy and philosophy of religion Praying With An Atheist Joe Johnson,2023-08-02 A series of conversations and analysis about the most pressing issues that surround a life of Christian faith A blend of humor thought and prayer that is both relatable and provoking If you have ever wondered how to share your faith and beliefs with non believers this is the book for you The Publishers Weekly ,1922 *Best Sellers* ,1986 **New Outlook** ,1930 Outlook and Independent ,1930 Book Review Digest ,1924 **The Christian Advocate** ,1908 **Literary World; Choice Readings from the Best New Books, with Critical Reviews** ,1888 *Salesology* ,1925 **The Literary Digest International Book Review** Clifford Smyth,1923 **Academic American Encyclopedia** ,1998 A twenty one volume set of encyclopedias providing an alphabetical listing of information on a variety of topics *First Things* ,2007 **The Literary World** ,1884 Much Loved Books James O'Donnell Bennett,1927
