Behaviorism at 100: An American History Richard Gilbert, 2013 **A Critical Approach to Conceptual and Historical Issues in Psychology** Stanley O. Gaines, Jr., 2025-03-14

A Critical Approach to Conceptual and Historical Issues in Psychology Soul Self and Science examines the evolving concept of human consciousness throughout the ages to show how humanity progressed from studies of the soul a major concern of ancient philosophy to a science of the mind including the self a primary concern of contemporary psychology Divided into five parts the book moves through the history of psychology from its philosophical roots into the present day and beyond It takes a balanced and critical approach to figures and theories which have been instrumental in the development of psychology as a discipline such as Plato Descartes Wundt Du Bois Freud Jung Watson Skinner and Maslow Throughout it offers diverse perspectives on the field s history providing insights into such topics as race and intelligence gender and personality and their treatment within psychology Each chapter is supported by breakout boxes highlighting key theories related to that chapter s topic Thought questions to encourage the reader to critically evaluate what they have read notes with further information and suggestions for further reading are provided online Of particular interest to postgraduate students on MSc conversion courses the book will also interest undergraduate students completing history of psychology conceptual and historical issues in psychology history and systems of psychology and related modules This textbook was designed to comply with the QAA Subject Benchmark Statement in Psychology and the BPS accreditation guidelines for content in Conceptual and Historical Issues in Psychology

Designing Experiments for the Social Sciences Renita Coleman, 2018-08-27

Designing Experiments for the Social Sciences How to Plan Create and Execute Research Using Experiments is a practical applied text for courses in experimental design The text assumes that students have just a basic knowledge of the scientific method and no statistics background is required With its focus on how to effectively design experiments rather than how to analyze them the book concentrates on the stage where researchers are making decisions about procedural aspects of the experiment before interventions and treatments are given Renita Coleman walks readers step by step on how to plan and execute experiments from the beginning by discussing choosing and collecting a sample creating the stimuli and questionnaire doing a manipulation check or pre test analyzing the data and understanding and interpreting the results Guidelines for deciding which elements are best used in the creation of a particular kind of experiment are also given This title offers rich pedagogy ethical considerations and examples pertinent to all social science disciplines

The Celluloid Specimen Benjamin Schultz-Figueroa, 2023-02-28

A free ebook version of this title is available through Luminos University of California Press s Open Access publishing program Visit www.luminosoa.org to learn more In The Celluloid Specimen Benjamin Schultz-Figueroa examines rarely seen behaviorist films of animal experiments from the 1930s and 1940s These laboratory recordings including Robert Yerkes s work with North American primate colonies Yale University s rat based simulations of human society and B F Skinner s promotions for pigeon guided missiles have long been

considered passive records of scientific research In Schultz Figueroa's incisive analysis however they are revealed to be rich historical political and aesthetic texts that played a crucial role in American scientific and cultural history and remain foundational to contemporary conceptions of species race identity and society Running Out Of Time Stephen F. Ledoux, 2014-04-21 Behaviorology is the natural science of why human behavior happens Like other natural scientists behaviorologists investigate human behavior through experimental research and apply their findings across every behavior related field from advertising to zoo keeping for humanity's benefit

Points of View in the Modern History of Psychology Claude E. Buxton, 2013-10-22 Points of View in the Modern History of Psychology is a collection of papers that presents each individual contributor's expert knowledge of history in the field of psychology One paper examines Wilhelm Wundt's concept of psychology as the propaedeutic science surviving and inspiring a generation or more of psychologists Another paper discusses the early sources and the basic conceptions of functionalism as used in America John B Watson proclaims behaviorism as a new discipline in psychology with defining features such as an objective deterministic scientific and experimental method that can be used in both human and animal studies Lieberman 1979 Mackenzie 1977 Miller Galanter and Pribram 1960 oppose behaviorism on the grounds that it slights the purpose of psychology and focuses more on methodology to the detriment of theory One paper notes that the acceptance or influence that a point of view has is based in some ways on the range and clarity of its connections with experimental and observational reality This collection can prove useful for psychologists behavioral scientists psychiatrists psychoanalysts students of psychology philosophy or general history who are interested in the many viewpoints of psychology
