Global Status Report on Road Safety 2018 World Health Organization, 2019-01-10 The Global status report on road safety 2018 launched by WHO in December 2018 highlights that the number of annual road traffic deaths has reached 1.35 million. Road traffic injuries are now the leading killer of people aged 5-29 years. The burden is disproportionately borne by pedestrians, cyclists, and motorcyclists, in particular those living in developing countries. The report suggests that the price paid for mobility is too high, especially because proven measures exist. Drastic action is needed to put these measures in place to meet any future global target that might be set and save lives. GEF Impact Evaluation of the Phaseout of ODS in Countries with Economies in Transition, Global Human Rights Law Collection, 1999 *Customary International Humanitarian Law* Jean-Marie Henckaerts, Louise Doswald-Beck, 2005 In 1996 the International Committee of the Red Cross alongside a range of renowned experts embarked upon a major international study into current state practice in international humanitarian law in order to identify customary law in this area. This book is the result of that study: a comprehensive analysis of the customary rules of international humanitarian law applicable in international and non-international armed conflicts. Given that important treaties in this area have not yet been universally ratified, this is a publication of major importance carried out at the express request of the international community. In so doing, this study identifies the common core of international humanitarian law binding on all parties to all armed conflicts. **Lindleyana**, 2000 *Current Catalog* National Library of Medicine (U.S.), First multi-year cumulation covers six years 1965-70 **Gidrologicheskaiâ Informatsionno-spravochnaia Sluzhba--INFOGIDRO** World Meteorological Organization, 1995 **National Union Catalog**, 1970 Includes entries for maps and atlases **Monthly Index of Russian Accessions** Library of Congress.
