Safety

Seat belts must be worn on every journey, even on short trips in town. This applies to the front and rear seats. To ensure that the seat belts, belt tensioners and airbags are fully effective, note the following points:

Adjust seat and sit in correct position

The front seats should not be positioned too close to the steering wheel or dashboard. Maintain a distance of at least 25 cm from the steering wheel. It is important to sit in a normal, upright position and set the backrest so it is fully against your back. The top of the head restraint should be at eye level or higher. Put your feet in a comfortable position in the foot well.

Wear the seat belt correctly

Make sure that the shoulder section of the belt is positioned over the centre of the shoulder, and move the lap section as far down over the hips as possible. The belts should always be worn so that they fit tightly (see illustration).

Safety of children in the vehicle

The retractor mechanism of the seat belts can be locked to secure a child safety seat.

Please observe the notes in the Audi Owner's Manual and refer to the manufacturer's instructions for the child seat.
