**By Any Media Necessary** Henry Jenkins, Sangita Shresthova, Liana Gamber-Thompson, Neta Kligler-Vilenchik, Arely Zimmerman, 2016 There is a widespread perception that the foundations of American democracy are dysfunctional and little is likely to emerge from traditional politics that will shift those conditions Youth are often seen as emblematic of this crisis frequently represented as uninterested in political life and ill informed about current affairs By Any Media Necessary offers a profoundly different picture of contemporary American youth Young men and women are tapping into the potential of new forms of communication such as social media platforms and spreadable videos and memes seeking to bring about political change by any media necessary In a series of case studies covering a diverse range of organizations networks and movements from the Harry Potter Alliance which fights for human rights in the name of the popular fantasy franchise to immigration rights advocates using superheroes to dramatize their struggles By Any Media Necessary examines the civic imagination at work Exploring new forms of political activities and identities emerging from the practice of participatory culture By Any Media Necessary reveals how these shifts in communication have unleashed a new political dynamism in American youth Jacket [The Instability of Truth](#) Rebecca Lemov, 2025-03-25 An acclaimed historian of science uncovers the hidden history of brainwashing and its troubling implications for today Because brainwashing affects both the world and our observation of the world we often don't recognize it while it's happening unless we know where to look As Rebecca Lemov writes in The Instability of Truth Brainwashing erases itself What we call brainwashing is more common than we think it is not so much what happens to other people as what can happen to anyone The Instability of Truth exposes the myriad ways our minds can be controlled against our will from the brainwashing techniques used against American POWs in North Korea to the soft brainwashing of social media doomscrolling and behavior shaping In our increasingly data driven world anyone can fall victim to mind control Lemov identifies invasive forms of emotional engineering that exploit trauma and addiction to coerce and persuade in everyday life Tracing the word brainwashing from deep in the files of an operative of the U S Office of Strategic Services in the 1950s to the pioneering research of Robert Jay Lifton to the public trials of cult leaders and the case of Patty Hearst Lemov also studies how the idea of mind control has spread across the globe and penetrated courtrooms secret labs military schools and today's digital sites The Instability of Truth offers lessons from mind control episodes past and present Truth is always subject to question in more mundane walks of life than most people believe and Lemov equips us for the increasing challenges we face from social media AI and an unprecedented global form of surveillance capitalism The Instability of Truth develops a rigorous new understanding of both brainwashing's paradoxes and its emotional roots by giving voice to brainwashers the brainwashed and third party observers alike
