Blueberries Crop Production Science In Horticulture:

Blueberries, 2nd Edition Jorge B Retamales, James F Hancock, 2018-08-01 Blueberry cultivation has increased dramatically as production has shifted into new regions Blueberries are now widely available as food and also processed to be used in medicine and pharmaceuticals for their antioxidant properties This new and updated edition covers the major topics of interest to blueberry breeders and researchers including botany physiology nutrition growth regulation photosynthesis environment weeds pests diseases and postharvest management The main focus is on the most important cultivated species the highbush blueberry although information on other blueberries and related species is also provided It is an essential resource for soft fruit researchers extension workers academics breeders growers and students Crop Production Science in Horticulture Blueberries Jorge B. Retamales, **Blackberries and their Hybrids. Crop Production Science in Horticulture** Harvey K Hall, Richard C Funt, 2017-10-31 This practical book provides a comprehensive and accessible overview of all aspects of the commercial production of blackberries and their hybrids covering plant growth and development cultivar description and selection propagation pruning soil and water management postharvest management economics and marketing and pest identification and management Cultivated blackberries are a relatively new crop but with new cultivars and cultural practices they are now grown and available worldwide Production regions have expanded internationally due to innovative methods showing much promise and evidence of human health benefits Blueberry Plant Protection Guide 2015-16 Phillip Wilk, Melinda Simpson, Bruce Browne, 2015-10-21 This is the first edition of the Blueberry Plant Protection Guide which is the latest in a series of similar publications which have served industry for over 56 years It provides up to date information on all aspects of protecting your orchard from pests and diseases The guide was produced by the NSW Department of Primary Industries in partnership with Horticulture Innovation Australia and is a helpful resource for blueberry growers with chapters on Good management to control common diseases pests and disorders in your orchard Orchard management Weed management Biological control Applying pesticides Avoiding resistance to pesticides The guide includes four feature articles Feature article 1 Understanding Blueberry rust to improve management Feature article 2 The stem girdling moth *Idiophantis habrias* an emerging pest in blueberries in northern NSW Feature article 3 Harvesting and handling of blueberries Feature article 4 Current research Evaluating the benefits of reflective mulch **Sweet Cherries** Lynn E. Long, Gregory A. Lang, Clive Kaiser, 2020-12-03 This new book provides comprehensive coverage of sustainable sweet cherry production including global trends improved varieties and rootstocks orchard establishment and management the physiology of growth and cropping and protecting the crop from adverse climates pests and diseases Sweet cherries are a specialty crop subject to significant production risks for growers yet with high potential market returns due to strong consumer demand for the fruit s intensely enjoyable flavor and nutraceutical benefits Peppers Paul W. Bosland, Eric J. Votava, Eric M. Votava, 2012 Although thought of as a minor crop peppers are a major world commodity due to their great

versatility They are used not only as vegetables in their own right but also as flavourings in food products pharmaceuticals and cosmetics Aimed at advanced students and growers this second edition expands upon topics covered in the first such as the plant's history genetics production diseases and pests and brings the text up to date with current research and understanding of this genus New material includes an expansion of marker assisted breeding to cover the different types of markers available new directions and trends in the industry the loss of germplasm and access to it and the long term preservation of Capsicum resources worldwide

Raspberries Richard C. Funt, Harvey K. Hall, 2013 Much of the research data gleaned from hundreds of bulletins conference proceedings newsletters and reports during the 20th century is presented in this book The growth and development climatic requirements site selection cultivar development and selection nursery production of plants propagation site preparation soil management and planting soil and water management pruning and training pest and disease management crop production postharvest physiology and storage marketing farm management and economics world production and marketing of raspberry are discussed

Tropical Fruits Robert E. Paull, Odilo Duarte, 2011 Volume 2 of this revised edition of Tropical Fruits examines the more specialist tropical fruits such as guava durian mangosteen passion fruits and palm fruits With growing interest in the cultivation production study sales and marketability of these specialist fruits this is a timely and informative book Topics like botany soil and climate requirements cultivar development world production and harvesting and postharvest handling are covered in depth for each crop This practical and accessible book is an ideal text for horticulture academics researchers extension workers students breeders growers and policy makers

Tomatoes, 2nd Edition Ep Heuvelink, 2018-08-01 This new edition of a successful practical book provides a comprehensive and accessible overview of all aspects of the production of the tomato crop within the context of the global tomato industry Tomatoes are one of the most important horticultural crops in both temperate and tropical regions and this book explores our current knowledge of the scientific principles underlying their biology and production Tomatoes 2nd Edition covers genetics and breeding developmental processes crop growth and yield fruit ripening and quality irrigation and fertilisation crop protection production in the open field greenhouse production and postharvest biology and handling It has been updated to reflect advances in the field such as developments in molecular plant breeding crop and product physiology and production systems It includes a new chapter on organic tomato production and presents photos in full colour throughout Authored by an international team of experts this book is essential for growers extension workers industry personnel and horticulture students and lecturers

Strawberries, 2nd Edition James F. Hancock, 2020-09-21 This new and updated edition of a popular text provides a broad balanced review of the scientific knowledge of strawberries and their cultivation The worldwide strawberry industry has grown substantially since the original book was published and methods of culture have undergone extensive modifications This volume incorporates important changes to the taxonomy of strawberries and new understanding of how its ancestors evolved It includes coverage of new disease and pest control

methods and recent developments in genomic information These advancements have greatly improved our understanding of how flowering and fruiting is regulated and will revolutionize the breeding of strawberries

Peas and Beans Anthony J Biddle, 2017-07-28 This practical book provides an accessible overview of all aspects of pea and bean production including botany and physiology breeding agronomy weed management pests and diseases harvesting nutritional value and uses It also reflects on the constraints and opportunities in the future for peas and beans exploring their role in food sustainability and crop rotation and various factors affecting supply and demand such as climate change and breeding technologies Peas and beans are crops of economic social and agronomic importance and this volume provides the specialist knowledge needed to ensure good quality standards are met Authored by a recognized authority with extensive experience in applied research this book is an ideal resource for practical agronomists advisors and producers extension workers horticulture students and all those involved in the production of peas and beans
