The Civilization of the South American Indians Rafael Karsten, 1926 *Ancestral Power* Lynne Hume, 2013-05-31 The

Dreaming or the Dreamtime is the English translation of a complex Aboriginal religious concept. It relates to the idea of an ancestral presence which exists as a spiritual power that is deeply present in the land. This presence or power also exists in certain paintings in some dance performances and in songs, blood and ceremonial objects. In *Ancestral Power* Lynne Hume seeks to further our understanding of human consciousness by looking through a Western lens at the concept of the Dreaming. She examines the idea that Aboriginal people may have used certain techniques for entering altered states of consciousness. Could their experiences in such states together with their extensive knowledge of their environment have helped to create the cosmological scheme we call the Dreaming? With these questions in mind she brings together and examines for the first time a wide range of existing literature on Aboriginal cosmology and spiritual practices together with studies of Aboriginal art data from anthropologists and ethnomusicologists and statements by Aboriginal people from many different regional areas of Australia. Much of the information she highlights is little known. *Ancestral Power* suggests that Aboriginal spirituality is much more complex and compelling than the early missionaries could ever have imagined.

Handbook of Studies on Men and Masculinities Michael S. Kimmel, Jeff Hearn, Raewyn Connell, 2005. In the past research in the field of gender has mainly addressed issues about women and has for the most part been developed by women. Recently the study of gender has rapidly expanded and there has been a growing interest in men's and boys' identities, conduct and problems. The *Handbook of Studies on Men and Masculinities* is an interdisciplinary and international culmination of the growth of men's studies that also offers insight about future directions for the field. The *Handbook* provides a broad view of masculinities primarily across the social sciences with the inclusion of important debates in some areas of the humanities and natural sciences. The various approaches presented in this *Handbook* range across different disciplines, theoretical perspectives, methodologies and conceptualizations in relation to the topic of men. Editors Michael S. Kimmel, Jeff Hearn and Robert W. Connell have assembled an esteemed group of contributors who are among the best known experts in their particular fields. The *Handbook of Studies on Men and Masculinities* examines the construction of masculinities in four different frames: the social organization of masculinities in their global and regional iterations; the institutional reproduction and articulation of masculinities; the ways in which masculinities are organized and practiced within a context of gender relations; and the ways in which individual men express and understand their gendered identities. The *Handbook* is organized in a way that moves from the larger global and institutional articulations of masculinities to the more intimate and personal expressions. The *Handbook of Studies on Men and Masculinities* provides scholars, researchers and students with the most current incisive scholarship available for the men's studies area of gender studies. It is a vital resource for those interested in the practical or cultural issues about men, boys and gender as well as an excellent addition to any academic library. *Reports of cases argued and determined in the Supreme Court of the State of Montana*, 1985.
