Body Remember: A Memoir

Fries, Kenny (2003)

Ann Arbor: University of Wisconsin Press.

"I am the freak in the centre of all three rings, as well as the star of the sideshow, in a travelling circus that should have closed down a very long time ago (p175)". This sentence succinctly describes Kenny Fries' view of himself in relation to the world in which he lives and yet is not truly part of. He dreams of a world where "connotations of disability are not pejorative" and labels of disability become the names of constellations. He is uniquely qualified to write on the social construct of disability as in the lotto of life he drew three aces, disabled, Jewish and homosexual; in a world that marginalises minorities he is truly looking from the outside in. However in the *Body Remember* he instead looks at the issue of disability from a more personal viewpoint, his own experience.

Body Remember is a memoir. It is an extension of a true autobiography because Fries does not just relate his story instead he explores the events in his life that are lodged in his memory and seeks to explain why those moments are significant while others are not. A memoir generally centres on a conflict or a quest and attempts to resolve it. Fries' quest is one of understanding, how his love for his childhood doctor relates to the pain his body remembers, how his love for his family relates to the abuse he received from his father and brother and finally how his concept of self equates to how others perceive him.

Fries' story differs from many other autobiographical stories. Fries is not looking for a way to "be normal" he is instead looking for a sense of belonging within himself. A "home" where he feels connected to himself, his disability, his sexuality, his religion and his past. "I think home is not necessarily land, land not necessarily home. To have an identity one must have a home", and this ultimately is the conflict that exists at the heart of the story. "Who am I" and "Why am I the way that I am". The role of antagonist is played by Fries' own failure to find a home and therefore denying him an identity.

Fries' journey is hard to travel in some parts, but his childhood recollections are truly memorable taking the reader into the spontaneous, accepting mind of a child whose ambivalence at the base of every relationship follows him into adulthood. It is important to remember that a memoir struggles with the truth as few people can truly remember clear details of their life. This is even more apt in Fries' case as he admits that he has very little memory of his childhood and is forced to rely on obscure medical files that explain nothing

Memoirs of Well-Being Tanja Reiffenrath, 2016-05-15 As the body politics of life writing in the United States change illness and disability memoirs receive considerable attention Although these narratives are framed by a lack of health they abundantly present health and do so beyond its binary relationship to the pathological This book departs from previous scholarship by bringing into focus the writers' representations of cure recovery and healing as well as their reluctance to bring closure to their narratives and align their stories with traditional notions of health These memoirs thus partake in the construction of alternative narratives of illness and disability

Contemporary Gay American Poets and Playwrights Emmanuel S. Nelson, 2003-06-30 Gay presence is nothing new to American verse and theater Homoerotic themes are discernible in American poetry as early as the 19th century and identifiably gay characters appeared on the American stage more than 70 years ago But aside from a few notable exceptions gay artists of earlier generations felt compelled to avoid sexual candor in their writings Conversely most contemporary gay poets and playwrights are free from such constraints and have created a remarkable body of work This reference is a guide to their creative achievements Alphabetically arranged entries present 62 contemporary gay American poets and dramatists While the majority of included writers are younger artists who came of age in the post Stonewall U S some are older authors whose work has continued or persisted into recent decades A number of these writers are well known including Edward Albee Harvey Fierstein and Allen Ginsberg Others such as Alan Bowne Timothy Liu and Robert O'Hara merit wider recognition Each entry is written by an expert contributor and includes a biography a discussion of major works and themes an overview of the author's critical reception and primary and secondary bibliographies
