, *Corporeal Bonds* Patrizia Sambuco, 2012-06-11 The mother daughter relationship is a popular theme in contemporary Italian writing but has never before been analysed in a comprehensive book length study In *Corporeal Bonds* Patrizia Sambuco analyses novels by authors such as Elsa Morante Francesca Sanvitale Mariateresa Di Lascia and Elena Ferrante each of which is narrated from the daughter s point of view and depicts the daughter s bond with the mother Highlighting the recurrent images throughout these works Sambuco traces these back to alternative forms of communication between mother and daughter as well as to the female body Sambuco also explores the attempts of the daughter narrators to define a female self that is outside the constrictions of patriarchal society Through these investigations *Corporeal Bonds* identifies a strong connection between the ideas of post Lacanian critical theorists Italian feminist thinkers and the stories within the novels

Gioberti, 1912 **Commentary and Tradition** Pierluigi Donini, 2010-12-23 The volume collects the most important papers

Pierluigi Donini wrote in the last three decades with the aim of promoting a better assessment of post hellenistic philosophy The philosophical relevance of post hellenistic philosophy is now widely though not yet universally recognized Yet much remains to be done The common practice of focusing each single school in itself detracts from a balanced assessment of the strategies exploited by many philosophers of the period On the assumption that debates among schools play a major role in the philosophy of the commentators Donini concentrates on the interaction between leading Aristotelians and Platonists and demonstrates that the developments of both systems of thought were heavily influenced by a continuous confrontation between the two schools And whereas in cases such as Alcinous and Aspasius this is basically uncontroversial for other authors such as Alexander Antiochus and Plutarch the pioneering work of Donini paves the way for a better understanding of their doctrines and definitely confirms the intellectual importance of the first imperial age when the foundations were laid of versions of both Aristotelianism and Platonism which were bound to influence the whole history of European thought from Late Antiquity onwards
