The Sarbanes Oxley Act has been one of the most significant developments in corporate and securities regulation since the New Deal. This collection of important articles would be a valuable resource for anyone seeking to understand Sarbanes Oxley's far reaching effects on corporate governance in the United States and elsewhere. Jesse Fried, coauthor of *Pay Without Performance: The Unfulfilled Promise of Executive Compensation* and Professor of Law at the University of California Berkeley. The editors have assembled the latest cutting edge research on international corporate governance by respected academics in this field. In this handbook the editors deal with all aspects of the significant legislative changes to corporate governance regulation. It introduces the reader to the new rules that will certainly improve the reliability and the accuracy of disclosures made by corporations. The book comes at the right moment with the recent scandals such as Enron which will educate all readers especially shareholders of corporate stock. Komlan Sedzro, Professor of Finance, University of Quebec at Montreal. Today corporate governance is a topic at the center of public policy debate in most industrialized countries. The range of concerns the variety of approaches and their tendency to converge in some areas or diverge in others not always in the right directions are emphatically demonstrated by these essays. There is material here of enormous interest for scholars of comparative law and economic regulation. And significantly the presentation of essays from legal, financial and regulatory viewpoints demonstrates the growing practical as well as theoretical utility of interdisciplinary work in this area. Professors Ali and Gregoriou are to be warmly congratulated for their skill and initiative in assembling an important publication as well as for their own contributions to interdisciplinary scholarship.
