Art and Artist. Creative Urge and Personality Development ... Translated ... by Charles Francis Atkinson. [With Plates.].
Otto RANK,Charles Francis ATKINSON,1932 **The Psychology of Artists and the Arts** Edward W.L. Smith,2014-01-10
This book offers the first comprehensive examination of the psychodynamic theories of artistic creativity and the arts Neither oversimplifying the complexity of these theories nor bogging down in pedantic discourse it honors the depth and richness of the work of Freud Adler Kris Reich Jung and several lesser known theorists while making their theories readily accessible to the educated reader After discussing the role of theory the work offers each concept as a readily usable template for describing and understanding a work of art whether painting sculpture music dance film poetry or prose With these theories at hand anyone interested in the arts will possess a far richer vocabulary for describing the artistic experience and a deeper understanding of the artist s creativity **The Creativity Question** Albert Rothenberg,Carl R. Hausman,1976 Albert Rothenberg a psychiatrist and Carl R Hausman a philosopher have prepared a truly comprehensive interdisciplinary book of readings on creativity This group of selections from the works of writers in psychiatry philosophy psychology psychoanalysis and education brings together for the first time major theoretical works outstanding empirical findings and discussions of the definition and nature of creativity The organization of *The Creativity Question* is unique it illustrates the various approaches and basic assumptions underlying studies of creativity throughout the course of history up to the present time The main body of selections appears under the categories of descriptions attempts at explanation and alternate approaches As specific orientations to creativity can be traced to particular initiating thinkers and investigators there is a special chapter on seminal accounts containing selections from the works of Plato Aristotle Kant Galton and Freud Another chapter includes recent illustrations of special types of exploratory trends creativity of women brain research synectics extrasensory perception behaviorism and creativity computer programming This organization highlights the tension between strictly scientific accounts and alternative approaches offering new ways of understanding The editors have provided for the books as a whole and for each chapter explanation and discussion of the basic issues raised by the various approaches to creativity

Between Self and Society John Rodden,2016-01-15 *Between Self and Society* explores the psychosocial dramas that galvanize six major British novels written between the eighteenth and twentieth centuries The book challenges an influential misconception that has for too long hindered appreciation of the psychological novel John Rodden argues that there should be no simplifying antithesis between psychological inner conflicts within the mind or soul and institutional outer conflicts within family class community Instead it is the overarching dramatic yet often tortuous relations between self and society

that demand our attention Rodden presents fresh interpretations of an eclectic group of prose fiction classics including Tobias Smollett's *The Adventures of Roderick Random* William Godwin's *Caleb Williams* Thomas Hardy's *The Mayor of Casterbridge* Ford Madox Ford's *The Good Soldier* Wyndham Lewis's *Tarr* and D H Lawrence's *Women in Love* Far from being merely admirable experiments let alone daring though interesting failures these fictions are shown to possess aesthetic unity stylistic consistency and psychic force Between Self and Society thus impels our careful reconsideration of novels that represent major artistic achievements yet have been either unjustly neglected or appreciated in limiting ways that do injustice to their psychological aspects Rodden's vibrant discussion invites an upward revaluation of these works and encourages the full recognition of their value and significance in British literary history

Meister Eckhart Matthew Fox, 2014-06-10 Though he lived in the thirteenth century Meister Eckhart's deeply ecumenical teachings were in many ways modern He taught about what we call ecology championed artistic creativity and advocated for social economic and gender justice All these elements have inspired spiritual maverick Matthew Fox and influenced his *Creation Spirituality* Here Fox creates metaphorical meetings between Eckhart and Teilhard de Chardin Thich Nhat Hanh Carl Jung Black Elk Rumi Adrienne Rich and other radical thinkers The result is profoundly insightful substantive and inspiring
