**Senegalese Stagecraft** Brian Valente-Quinn, 2021-07-15 Senegalese Stagecraft explores the theatrical stage in Senegal as a site of poetic expression, political activism, and community engagement. In their responses to the country's colonial heritage as well as through their innovations on the craft of theater making, Senegalese performers have created an array of decolonizing stage spaces that have shaped the country's theater history. Their work has also addressed a global audience, experimenting with international performance practices while proposing new visions of the role of culture and stagecraft in society. Through a study of the innovative work of Senegalese theater makers from the 1930s onward, Senegalese Stagecraft explores a wide range of historical contexts and themes, including French colonial education, cultural Pan Africanism, West African Sufism, uses of television and mass media, and popular theater and activism. Using a multidisciplinary approach that includes field archival and literary methods, Valente Quinn offers a fresh look at performance cultures of West Africa and the Global South in a book that will interest students and scholars in African Francophone and performance studies

The essays focus on issues such as street design in Vienna the motion picture industry in Los Angeles architecture in Marseilles and Algiers and the kaleidoscopic paradox of post apartheid Johannesburg. They explore the nature of spatial politics examining the disparate worlds of eighteenth century Baghdad nineteenth century Morelia. [To Be Free and French](#) Lorelle Semley, 2017-07-10 The Haitian Revolution may have galvanized subjects of French empire in the Americas and Africa struggling to define freedom and Frenchness for themselves but Lorelle Semley reveals that this event was just one moment in a longer struggle of women and men of color for rights under the French colonial regime. Through political activism ranging from armed struggle to literary expression these colonial subjects challenged and exploited promises in French Republican rhetoric that should have contradicted the continued use of slavery in the Americas and the introduction of exploitative labor in the colonization of Africa. They defined an alternative French citizenship which recognized difference particularly race as part of a universal French identity. Spanning Atlantic port cities in Haiti Senegal Martinique Benin and France this book is a major contribution to scholarship on citizenship race empire and gender and it sheds new light on debates around human rights and immigration in contemporary France. [\*\*The African Presence in Black America\*\*](#) Jacob U. Gordon, 2004 However the question of the extent to which African way of life was transplanted and preserved in the New World has been the subject of scholarly debate for many years and two schools of thought have emerged. Some scholars contend that nothing existed in Africa that approached civilization

and that there was therefore nothing for Africans to bring with them to the New World. They also argue that the severity of the plantation system and the acculturation processes of the slaves destroyed any Africanism in the New World. On the other hand some scholars have insisted that the African cultural heritage can still be seen in many aspects of the American life and thought today.
