

WRITING EFFECTIVELY:
Hints and Helpful Guidance for the Army Writer
Writing Guide #1

The Army is effective only if information and directions are clearly communicated. In carrying out your military duties, you will write various types of correspondence. This student guide will help you become an effective Army writer.

ARMY WRITING STYLE

General Summary

Following the components of the Army writing style will lead you to write to Army standard. The Army standard is stated as "transmits a clear message in a single rapid reading and is generally free of errors in grammar, mechanics, and usage." A general summary of the Army writing style is below:

1. Put the recommendation, conclusion or reason for writing -- the bottom line" -- in the first or second paragraph, not at the end.
2. Use the active voice.
3. Use short sentences (an average of 15 or fewer words).
4. Use short words (three syllables or fewer).
5. Write paragraphs that average 6 to 7 sentences in length.
6. Use correct spelling, grammar, and punctuation.
7. Use "I," "you," and "we" as subjects of sentences instead of "this office," "this headquarters," "all individuals," and so forth for most kinds of writing.
8. Retype correspondence only when pen and ink changes are not allowed, when the changes make the final product look sloppy, or when the correspondence is going outside DA or to the general public. In general, do not retype correspondence to make minor corrections.

Learning to accurately use the various components of the Army writing style correctly will help you learn to write using the Army writing standard.

STEPS IN THE WRITING PROCESS

Writing Guide #2

All writing follows the same basic steps regardless of whether you are writing for the Army or writing a research paper. The following steps will help you develop a well-thought out and well-written product.

- Step 1. RESEARCH
- Step 2. PLAN
- Step 3. PREPARE A DRAFT
- Step 4. REVISE YOUR DRAFT
- Step 5. PROOF

1. **STEP 1: RESEARCH.** Research is the gathering of ideas and information. This is the step where you answer the "who, when, where, what, and how of the issue". Since we gather information in different ways, you must find the system which best suits you and your task. This means that as you gather ideas, you must keep in mind both your purpose and your audience. Gather as many ideas as you can. Use all possible sources. It is easier to throw out ideas that you don't need than it is to go back and do more research. Once you have the ideas you need, you will continue to the planning stage.

Suggested Actions

- a. Collect as much information as possible about the subject.
 - (1) Record the information you collect about the subject.
