

High School (Preparation)

- Complete AP courses in chemistry, biology, physics, etc. that can contribute towards meeting your required undergrad coursework.
- Complete extracurricular activities such as volunteer work and internships that can contribute towards your med school extracurriculars.

Undergrad (3 to 4 Years)

- For a faster timeline, consider completing a BS/MD program or other combined degree program that allows you to finish your education in six to seven years instead of eight.
- You can also complete undergrad in three years by taking summer school, extra courses per semester, and extra credit projects.
