much more *Your Career As a Fashion Designer* Institute For Institute For Career Research,2015-08-06 A CAREER AS A FASHION DESIGNER begins in your imagination Are you a person who looks at clothing shoes and hats as they pass by and imagine another way that they might have been made to look a different color perhaps or another fabric choice or a change in emphasis of some feature Do you look at the world around you and see the pattern of shadows a fence casts on a wall and picture a coat with that same pattern Do you notice the color of the sky on a late afternoon in summer just as storm clouds move to cover the sun and think what an elegant shade that would be for a shirt Do you feel how comfortable to the touch is the wood used in the benches at a railway station Imagine how excellent it would be to have buttons made with the same kind of wood If these are typical of the types of thoughts that go through your mind then you are on the right track when it comes to considering a career as a fashion designer This is not an easy career by any means It is a highly competitive category with many ego driven participants some with dreams of glory that may make them less than pleasant to be around much less work with Nevertheless there are many kind creative and cooperative people in the industry which is a good thing since so much of what goes into the development and marketing of new fashion designs is a team effort If you know you were born to be a fashion designer then you should consider getting the best training you can find so that the gifts you have can be developed to their fullest Of course it is possible to have a career as a fashion designer without a formal education but there is much to be learned in a college or technical school program including how to prepare a portfolio the necessary steps to landing a job or if you are determined to be your own boss to win the confidence of potential clients In fact one of the earliest decisions you will likely make as a would be fashion designer is whether you are going to seek employment with a manufacturer or whether you plan to go out on your own About a third of all fashion designers are self employed meaning they have their own shops or companies where they sell their own designs and perhaps some creations of friends and colleagues These independent fashion designers can also work on a contract basis for apparel manufacturers It is possible that until your career takes off you will have to do other work to support yourself while moving toward your goals Within the
