The Corporate Security Professional's Handbook on Terrorism Edward Halibozek, Andy Jones, Gerald L. Kovacich, 2007-08-28 The Corporate Security Professional's Handbook on Terrorism is a professional reference that clarifies the difference between terrorism against corporations and their assets versus terrorism against government assets It addresses the existing misconceptions regarding how terrorism does or does not affect corporations and provides security professionals and business executives with a better understanding of how terrorism may impact them Consisting three sections Section I provides an explanation of what terrorism is its history who engages in it and why Section II focuses on helping the security professional develop and implement an effective anti terrorism program in order to better protect the employees and assets of the corporation Section III discusses the future as it relates to the likelihood of having to deal with terrorism The book provides the reader with a practitioner's guide augmented by a historical assessment of terrorism and its impact to corporations enabling them to immediately put in place useful security processes and methods to protect their corporate interests against potential acts of terror This is guide is an essential tool for preparing security professionals and company executives to operate in an increasingly hostile global business environment Features case studies involving acts of terror perpetrated against corporate interests Provides coverage of the growing business practice of outsourcing security Remains practical and straightforward in offering strategies on physically securing premises determining risk protecting employees and implementing emergency planning

Next-Generation Homeland Security John Morton, 2012-10-15 Security governance in the second decade of the 21st century is ill serving the American people Left uncorrected civic life and national continuity will remain increasingly at risk At stake well beyond our shores is the stability and future direction of an international political and economic system dependent on robust and continued U S engagement Outdated hierarchical industrial structures and processes configured in 1947 for the Cold War no longer provide for the security and resilience of the homeland Security governance in this post industrial digital age of complex interdependencies must transform to anticipate and if necessary manage a range of cascading catastrophic effects whether wrought by asymmetric adversaries or technological or natural disasters Security structures and processes that perpetuate a 20th century top down federal centric governance model offer Americans no more than a single point of failure The strategic environment has changed the system has not Changes in policy alone will not bring resolution U S security governance today requires a means to begin the

structural and process transformation into what this book calls Network Federalism Charting the origins and development of borders out security governance into and through the American Century the book establishes how an expanding techno industrial base enabled American hegemony Turning to the homeland it introduces a borders in narrative the convergence of the functional disciplines of emergency management civil defense resource mobilization and counterterrorism into what is now called homeland security For both policymakers and students a seminal work in the yet to be established homeland security canon this book records the political dynamics behind the creation of the Department of Homeland Security the impact of Hurricane Katrina and the ongoing development of what is now called the Homeland Security Enterprise The work makes the case that national security governance has heretofore been one dimensional involving horizontal interagency structures and processes at the Federal level Yet homeland security in this federal republic has a second dimension that is vertical intergovernmental involving sovereign states and local governments whose personnel are not in the President s chain of command In the strategic environment of the post industrial 21st century states thus have a co equal role in strategy and policy development resourcing and operational execution to perform security and resilience missions This book argues that only a Network Federal governance will provide unity of effort to mature the Homeland Security Enterprise The places to start implementing network federal mechanisms are in the ten FEMA regions To that end it recommends establishment of Regional Preparedness Staffs composed of Federal state and local personnel serving as co equals on Intergovernmental Personnel Act IPA rotational assignments These IPAs would form the basis of an intergovernmental and interdisciplinary homeland security professional cadre to build a collaborative national preparedness culture As facilitators of regional unity of effort with regard to prioritization of risk planning resourcing and operational execution these Regional Preparedness Staffs would provide the Nation with decentralized network nodes enabling security and resilience in this 21st century post industrial strategic environment *Managing the Next Domestic Catastrophe* Christine E. The Distributed Functions of Emergency Management and Homeland Security David A. McEntire, 2023-07-19 The Distributed Functions of Emergency Management and Homeland Security outlines the roles and responsibilities of various individuals and agencies involved in homeland security and all aspects of emergency management Each chapter focuses on the practical and applied aspects of a range of public servants in various departments and the organizations that they represent Rather than presenting a theoretical exploration alone the book examines the practical knowledge and hands on skills related to various functions and how their decisions and actions play into the larger framework of safety and security in the public private and nonprofit sectors Every professional has a unique and integral part to play in fulfilling their roles and obligations whether it be in relation to prevention mitigation preparedness response or recovery operations Personnel that frequently come to mind in such scenarios include emergency managers geographers and land use planners EMTs and paramedics fire fighters police officers public health officials nurses public administrators and public information officers

And while these individuals are integral to homeland security and emergency management there are other professionals that also perform essential duties that while they aren't first to mind are vital to efforts relating to terrorism and disasters this includes pilots in the aviation sector the military attorneys psychologists and forensic professionals serving in pathology DNA and dentistry roles Chapters provide a holistic rendering of the homeland security and emergency management landscape to present all these various professional capabilities and contributions This includes how current functions are coordinated as well as how future efforts might change relative to a more proactive all hazards and holistic approach As such the book will be a useful resource for students and practitioners to understand the dynamic professions and various disciplines and fields that impact disaster and terrorism preparedness and response capabilities

The Federal Response to Hurricane Katrina, 2006 The objective of this report is to identify and establish a roadmap on how to do that and lay the groundwork for transforming how this Nation from every level of government to the private sector to individual citizens and communities pursues a real and lasting vision of preparedness To get there will require significant change to the status quo to include adjustments to policy structure and mindset P 2
